Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

This Management's Discussion and Analysis ("MD&A") focuses on significant factors that have affected Silver Elephant Mining Corp. (the "Company", "Issuer", "Silver Elephant" or "ELEF") and its subsidiaries' performance and such factors that may affect its future performance. This MD&A should be read in conjunction with the Company's audited consolidated financial statements and related notes for the year ended March 31, 2025 (the "Annual Financial Statements"), the accompanying unaudited condensed interim consolidated financial statements for the interim period ended September 30, 2025, both of which were prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and the Company's Annual Information Form ("AIF"), dated June 23, 2025 (the "AIF"), all of which are available under the Company's SEDAR+ profile at www.sedarplus.ca. The information contained in this MD&A is current to November 12, 2025.

For the purposes of this MD&A, "Financial Position Date" means September 30, 2025, "this quarter" or "current quarter" means the three month period ended September 30, 2025, the "prior year quarter" means the three month period ended September 30, 2024, "this period" or "current period" means the six month period ended September 30, 2025, and the "prior year period" means the six month period ended September 30, 2024.

The information provided herein supplements but does not form part of the financial statements. Financial information is expressed in Canadian dollars, unless stated otherwise. All references to "\$" or "dollars" in this MD&A refer to Canadian dollars. References to "US\$" or "USD" refer to United States dollars and "MNT" refer to Mongolian Tugriks. Readers are cautioned that this MD&A contains "forward-looking statements" and that actual events may vary from management's expectations. Readers are encouraged to read the cautionary note contained herein regarding such forward-looking statements. Information on risks associated with investing in the Company's securities are contained in the AIF.

Profile

The Company is incorporated under the laws of the province of British Columbia, Canada. The common shares without par value in the capital of the Company (the "Common Shares") are listed for trading on the Toronto Stock Exchange (the "TSX") under the symbol "ELEF" and on the Frankfurt Stock Exchange under the symbol "1P2" and are quoted on the OTCQB under the symbol "SILEF". The Company maintains its registered and records office at Suite 1008 – 409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2.

The Company is a mineral exploration company focused on the development of its Pulacayo Paca silver-lead-zinc project located in southwestern Bolivia (the "Pulacayo Paca Project"). The Company is also evaluating strategic acquisitions to expand its portfolio of projects.

The Company also holds an interest in (a) the Ulaan Ovoo coal project located in Mongolia; and (b) the Chandgana coal project, located in Mongolia. The Ulaan Ovoo coal project and the Chandgana coal project have all been fully impaired. The Company also had de facto control over CleanTech Vanadium Mining Corp. (formerly Flying Nickel Mining Corp.) ("CleanTech" or "Flying Nickel"), by extension, the Minago nickel property in Canada (the "Minago Project") was also included in the Company's exploration and evaluation assets. The Company ceased to have de facto control over CleanTech as at October 1, 2023, therefore CleanTech and its Minago Project were deconsolidated from the Company's consolidated financial statements effective October 1, 2023 (the "CleanTech Deconsolidation"). In addition, the Company also had de facto control over Nevada Vanadium Mining Corp. ("Nevada Vanadium"), by extension, the Gibellini vanadium property in Nevada, USA (the "Gibellini Project") was also included in the Company's exploration and evaluation assets up until August 16, 2024, the date which CleanTech acquired Nevada Vanadium.

Nevada Vanadium including its Gibellini Project was deconsolidated from the Company's consolidated financial statements on August 16, 2024 as a result of CleanTech acquiring Nevada Vanadium (the "Nevada Vanadium Deconsolidation").

Silver Elephant Mining Corp.

Management's Discussion and Analysis

Corporate Updates

On July 1, 2025, Rob Van Drunen stepped down as the Company's Chief Operating Officer due to personal reasons.

On October 10, 2025 the Company appointed Stephanie Lee as its Vice President Legal. Ms. Lee is a Canadian-qualified lawyer with eight years of experience in corporate finance, securities and corporate governance with a primary focus on clients in the mining and natural resources sector. She joins Silver Elephant from private practice at a national law firm, where she advised public and private issuers on financings, disclosure, mergers and acquisitions and regulatory compliance. In her new role, Ms. Lee will oversee the Company's legal affairs and provide strategic counsel to support its operations and growth initiatives across its project portfolio.

On October 25, 2025, Alex Bayer stepped down as the Company's Chief Legal Officer. Mr. Bayer will remain available to the Company as a consultant.

Discussion Of OperationsPulacayo Paca Project, Bolivia

The Pulacayo Paca Project is 3,553 hectares of contiguous areas (the "Paca Pulacayo Project Area") located on the historical Pulacayo mine 18 kilometers east of the town of Uyuni in the Department of Potosí, in southwestern Bolivia. The Pulacayo-Paca Project is located 460 kilometers south-southeast of the national capital of La Paz and 150 kilometers southwest of the City of Potosí, the Department capital. Since October 2023, as part of operating oxide production the Company has developed significant infrastructure to support an open pit operation at the Pulacayo Paca Project. On site infrastructure constructed to date includes access roads, a certified truck scale, office and dispatch rooms, washroom and security facilities.

On October 26, 2020 the Company filed a National Instrument 43-101 compliant independent Technical Report (the "Technical Report") for the Pulacayo Paca Project titled "Mineral Resource Estimate Technical Report for the Pulacayo Project" prepared by Matthew Harrington, P.Ge., Michael Cullen, P.Ge. and Osvaldo Arce, P. Geo. each an independent "Qualified Person" as defined in NI 43-101, with an effective date of September 27, 2023. The Technical Report delineated a resource estimate at the Pulacayo Paca Project.

The Pulacayo Paca Project Area is made up of eight concessions in total: one concession held directly by the Company which covers 750 hectares (the "Apuradita Area", "Apuradita" or "Apuradita Paca Project") of the Paca Pulacayo Project Area and seven concessions covering 2,803 hectares (the "MPC Area") held through temporary permits and a Mining Production Contract ("MPC") dated October 3, 2019 with the Corporacion Minera de Bolivia ("Comibol"). To maintain the Apuradita Area concession in good standing, the Company must make certain annual payments. The Apuradita Claim Area concession permits the Company to explore and develop

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

the Apuradita Area. The MPC grants, once approved by the Plurinational Legislative Assembly, the Company exploration rights and an exclusive right to develop the MPC Area for up to 30 years. As at the Financial Position Date, approval has not yet been received.

In December 2024, the Company received a notice of cancellation (the "Notice of Cancellation") of the MPC from Comibol citing alleged illegal mining. The Company maintains that it has operated in full compliance under the MPC and received proper authorizations for its activities in the MPC Area. The Company remains committed to the development path for the Pulacayo Paca Project and has filed certain applications and appeals in Bolivia to reverse the Notice of Cancellation. The Notice of Cancellation does not affect the Apuradita Area.

The Company views its social license as integral to the development of the Pulacayo Paca Project. The Company actively engages with the local communities, keeping them up to date with regular town hall meetings, funding local infrastructure projects and providing community members with employment opportunities. In October 2023, the Company's subsidiaries in Bolivia signed a Cooperation Agreement with several local communities whereby the Company committed to active community engagement and the communities provided the Company with authorization to mine the Pulacayo Paca Project Area.

The Company's objectives in 2025 at the Pulacayo Paca Project are:

- Advance open pit operations at the Apuradita Area;
- Complete the appeal process relating to the Notice of Cancellation;
- Generate cash flow and metallurgical data from the Sulphide Tunnel Project (as defined below);
- Develop a 3D geological model incorporating collected metadata;
- Design a drill program to test high priority targets identified through modeling and IP mapping;
- Advance production and processing permitting; and
- Maintain social license through continued pro active community engagement.

Sulphide

On July 8, 2024, the Company announced its intention to begin mining of sulphide materials at the Pulacayo Paca Project (the "Sulphide Tunnel Project"). The Company continues construction on the access tunnel to the sulphide zone in the Apuradita Area with the intent to extract approximately 10,000 tonnes of mineralized material. The objective of the Sulphide Tunnel Project is to generate cashflow, refine the metallurgy and verify the resource model. The Sulphide Tunnel Project is not impacted by the Notice of Cancellation or the MSA and SPA Termination (as defined below).

On June 10, 2025, the Company announced that tunnel development at the Sulphide Tunnel Project reached the first production stope access. Further details are included in the respective press release available on the Company's website.

On July 24, 2025, the Company announced that it will commence shipping silver-bearing materials from the Apuradita Area in Bolivia for toll milling. Shipments will begin the first week of August, under a newly executed toll-milling agreement with an arms-length Bolivian private company. Pursuant to the terms of the toll-milling agreement dated July 7, 2025, the Company will deliver up to 10,000 tonnes of oxide and sulphide-bearing materials for treatment at a fixed toll milling fee. The agreement may be extended as more Apuradita Area resource is developed. The toll milling facility will generate a high-grade lead – silver and zinc – silver concentrates from the Apuradita Area silver materials feed. The Company will then sell the concentrates to an international concentrate buyer under a proposed contract.

On September 4, 2025, the Company announced that trucking of silver-mineralized material from the Company's Apuradita Paca Project commenced on August 29, 2025. The material mined from Apuradita is being toll-milled at a 400-tonnes-per-day processing plant located in Potosi, approximately 180 kilometers away (the "Toll Milling Facility"), to produce silver-lead-zinc concentrate for sale to an international concentrate buyer at spot silver price. Apuradita is outside of the area covered under the Mining Production Contract between the Company and the Corporacion Minera de Bolivia (COMIBOL).

On October 9, 2025, the Company announced that toll milling of silver-bearing material from the Company's Apuradita Paca Project in Bolivia has commenced. As at October 9, 2025, over 1,200 tonnes of silver-bearing material have been delivered to the toll-milling facility. The Company has also executed a concentrate off-take agreement with a major international buyer for the purchase of Apuradita metals concentrates. Mining operations at Apuradita continue at a steady rate, and Silver Elephant forecasts a near-term

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

monthly production target of 1,000 to 1,500 tonnes of silver-bearing mineralized material. The Company internally estimates an approximate total of 10,000 tonnes of mineralized feed in the initial 6-months campaign, which may be extended as additional mineralized zones are delineated and developed.

Royalty

The Pulacayo Paca Project is subject to a two percent (2%) royalty on all mineral products produced from certain mineral leases in Bolivia relating to Pulacayo Paca Project if the average price per ounce of silver exceeds US\$30.00 in a quarter. This royalty is payable to Oracle Commodity Holding Corp. ("Oracle").

On August 20, 2025, the Company executed amended and restated net smelter return ("NSR") royalty agreements covering Silver Elephant's Bolivian silver properties. Subject to the terms of the royalty agreements and any applicable regulatory or stock exchange approval, Silver Elephant and Oracle have agreed that 1) silver royalty based on raw or unprocessed minerals is reduced to 2% of (70% of gross metal value of sold materials), from 2% of (100% of gross metal value of sold materials), 2) silver royalty is payable regardless of silver price. The threshold silver price of \$30 per oz is removed, and 3) Silver Elephant is to provide a guarantee of silver royalty payments on behalf of Silver Elephant's Bolivian subsidiaries who are the silver royalty payors. This amendment remains subject to the approval of the TSXV as at the date of this MD&A.

Ulaan Ovoo and Chandgana Projects

Royalty

The Ulaan Ovoo Project and Chandgana Project is subject to a royalty payable to Oracle as follows: (i) two percent (2%) of returns in respect of all mineral products, other than coal after the commencement of commercial production; and (ii) in respect of coal (taking into account all interim multi-party transactions and calculated based on the final destination of coal extracted from the royalty area), the greater of: (a) US\$3.00 per tonne of coal extracted; (b) five percent (5%) of the money received per tonne of coal including transportation costs, subject to adjustment as provided; (c) in respect of coal sold, shipped and used in China, three percent (3%) per tonne of Newcastle 5,500 kcal/kg NAR as reported on the Intercontinental Exchange, Inc.; (d) four percent (4.0%) of the price per tonne of coal at the relevant port of location of export from Mongolia; and (e) if such price is not readily ascertainable, four percent (4.0%) of the average price of the China 5,500 kcal/kg NAR price per tonne as reported on the Zhengzhou Commodity Exchange for coal that was delivered to China.

On August 20, 2025, the Company and Oracle executed amended and restated NSR royalty agreements covering Silver Elephant's Mongolian coal properties. For the Mongolian coal properties, subject to the terms of the royalty agreements and any applicable regulatory or stock exchange approval, Silver Elephant and Oracle agreed that coal royalty is revised to the greater of US\$2 per tonne or 3% of NSR. Silver Elephant agreed to provide a guarantee of coal royalty payments on behalf of Silver Elephant's Mongolian subsidiaries who are the royalty payors. This amendment remains subject to the approval of the TSXV as at the date of this MD&A.

Triunfo Project, Bolivia

The El Triunfo gold-silver-lead-zinc project in Bolivia (the "Triunfo Project") area covers approximately 256 hectares located in the La Paz Department, which is located about 75 kilometers to the east of the city of La Paz, Bolivia. On July 10, 2020, the Company entered into an agreement (the "Triunfo Agreement") with a third party (the "Triunfo Vendor") for the right to conduct mining exploration activities (the "Exploration Right") within the El Triunfo gold-silver-lead-zinc project in La Paz District, Bolivia (the "Triunfo Project") and the right, at the Company's election, to purchase the Triunfo Project for \$1,365,400 (US\$1,000,000) (the "Purchase Right" and together with the Exploration Right, the "Triunfo Rights").

On April 8, 2025, the Company entered into an option assignment agreement (the "Triunfo Assignment Agreement") with CleanTech pursuant to which the Company proposed to assign its rights in and to the Triunfo Agreement to CleanTech in exchange for \$155,000 (received). The Triunfo Assignment Agreement was completed on August 6, 2025.

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

Gibellini Project, USA

The Gibellini vanadium project (the "Gibellini Project") is comprised of the Gibellini, Bisoni and Louie Hill vanadium deposits and associated claims located in the State of Nevada, USA.

On August 16, 2024, CleanTech acquired Nevada Vanadium and its Gibellini Project.

Investment in Oracle Commodity Holding Corp. ("Oracle")

On January 14, 2022, the Company completed a strategic reorganization of the Company's business through a statutory plan of arrangement (the "Spin-off Arrangement"). Under the terms of the Spin-off Arrangement, Oracle acquired certain mineral property net smelter royalty agreements ("Transferred Royalties"). No value was attributed to these royalties at the time.

The Transferred Royalties included the following:

(a) Titan Royalty Agreement

Oracle will receive a two per cent (2%) royalty on all mineral products produced from certain mineral claims and leases in Ontario relating to the Titan vanadium-iron-titanium project after the commencement of commercial production if the V2O5 Vanadium Pentoxide Flake 98% price per pound exceeds US\$12.

On August 4, 2023, Oracle granted to a third party, the right to acquire the Titan NSR at any time, for \$1,000,000 in cash. The third party paid Oracle \$5,000 as consideration for this right.

(b) Minago Royalty Agreement

Oracle will receive a two per cent (2%) royalty on all mineral products produced from certain mineral claims and leases from the Minago Project in Manitoba after the commencement of commercial production if the average price per pound of nickel exceeds US\$15.

(c) Gibellini Royalty Agreement

The Gibellini Project is located near Eureka in Nevada's Battle Mountain region. The Gibellini Project is made up of 547 unpatented lode claims held directly by CleanTech (the "Gibellini Claim Area") and 40 unpatented lode claims held through a long-term lease agreement (the "Gibellini Lease Area"). The Gibellini Project hosts three separate vanadium deposits each with a 43-101 compliant resource estimate.

The Gibellini Claim Area is subject to a royalty payable to Oracle. CleanTech is to pay, among other things, in each fiscal quarter where the average price per pound of V2O5 Vanadium Pentoxide Flake 98% as reported on the nominated metals exchange exceeds US\$12, a royalty equal to 2% of returns in respect of all mineral products produced from the Gibellini Claim Area after the commencement of commercial production. On March 3, 2025, Oracle entered into an amended agreement with CleanTech to remove an underlying threshold price to trigger royalty payments in exchange for \$200,000, of which \$75,000 has been paid and \$125,000 to be paid upon V2O5 Vanadium Pentoxide Flake 98% price exceeds US\$12 per pound for 180 consecutive days.

The Gibellini Lease Area is also subject a second royalty payable to Oracle on substantially the same terms as the Gibellini Claim Area Royalty and together with the Gibellini Claim Area Royalty.

Since January 14, 2022, the Company consolidated Oracle as a result of having defacto control over Oracle at the time. On August 14, 2025, Oracle, including the Transferred Royalties, was deconsolidated from the Company's consolidated financial statements as a result of loss of defacto control from the sale of shares of Oracle (the "Oracle Deconsolidation"). However, as the Company still maintains significant influence over Oracle, thus the Company has applied the equity method of accounting for Oracle. The Company has significant influence over Oracle as a result of having the power to participate in the financial and operating policy decisions of Oracle but does not have control or joint control.

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

The Company recorded the carrying value of its investment in Oracle at its fair value of \$494,002, resulting in a loss from deconsolidation of \$582,195. The fair value of the Company's investment in Oracle is determined based on share price of Oracle during August 14, 2025.

	\$
Balance, April 1, 2025	-
Derecognition of net assets of Oracle	557,776
Derecognition of non-controlling interest of Oracle	600,261
Consideration received	(81,840)
Fair value loss from deconsolidation of Oracle	(582,195)
	494,002
Disposition of Oracle common shares	(250,016)
Proportionate share of losses	(102,038)
Balance, September 30, 2025	141,948

As at September 30, 2025, the Company owned approximately 12% (March 31, 2025 - 35%) of the common shares of Oracle.

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

**Mongolia Tax Dispute and Restatement**

During the year ended March 31, 2025, the Company has identified an error in relation to taxes payable with respect to the transfer of certain licenses of its Ulaan Ovoo project from one wholly owned subsidiary to another wholly owned subsidiary (the "Ulaan Ovoo License Transfer").

On September 11, 2024, the Company received a tax notice of assessment of \$24,699,111 (63,787,924,960 Mongolian Tugriks) (the "Ulaan Ovoo Tax Assessment") from Mongolia's Capital City Tax Office ("CCTO") in connection with the Ulaan Ovoo License Transfer. The Ulaan Ovoo Tax Assessment is comprised of: 1) \$12,305,720 (31,780,752,566 Mongolian Tugriks) related to corporate income tax ("CIT") and related penalties and interest, and 2) \$12,393,391 (32,007,172,394 Mongolian Tugriks) related to value added tax ("VAT") and related penalties and interest. The Ulaan Ovoo License Transfer was completed on January 5, 2022. Prior to the completion of the Ulaan Ovoo License Transfer, the Company sought tax clarifications and on October 11, 2021 received confirmation from Mongolia's Large Taxpayer's Office ("LTPO") confirming the Ulaan Ovoo License Transfer would not be subject to CIT as the ultimate owner of the subsidiaries affected by the Ulaan Ovoo License Transfer remain unchanged. The Company is also of the opinion VAT should not apply to the Ulaan Ovoo License Transfer as there was no consideration transferred to and received by the applicable subsidiaries, and treatment of such would generally follow the same treatment as CIT. Accordingly, the Company filed a dispute for the Ulaan Ovoo Tax Assessment on October 18, 2024. There can be no assurance the Company will be successful in this dispute.

The LTPO and CCTO are sister offices both reporting directly to the Deputy Commissioner of the General Department of Taxation of Mongolia.

As a result of the Mongolia Tax Matter the Company restated its consolidated financial statements as noted below, which also includes a restatement relating to the Nevada Vanadium Deconsolidation.

Consolidated Statements of Financial Position

	Original March 31, 2024 (\$)	Ulaan Ovoo Tax Assessment (\$)	Restated March 31, 2024 (\$)
Liabilities			
Provision for Mongolia tax dispute	-	24,454,707	24,454,707
Total current liabilities	10,903,584	24,454,707	35,358,291
Total liabilities	15,435,430	24,454,707	39,890,137
Shareholders' Equity			
Accumulated other comprehensive income	530,098	(802,875)	(272,777)
Deficit	(226,913,916)	(23,651,832)	(250,565,748)
Equity attributable to equity holders of parent	21,925,296	(24,454,707)	(2,529,411)
Total equity	35,304,353	(24,454,707)	10,849,646

The increase in the provision for Mongolia tax dispute from \$24,454,707 at March 31, 2024 to \$27,682,126 at March 31, 2025 is attributable to accrual of interest of \$2,624,646 and the effect of foreign exchange of \$602,773.

June 30, 2024 (restated)	Q1 2025	(2,093,528)	(0.06)	(0.06)
March 31, 2024 (restated)	Q4 2024	(6,386,583)	(0.19)	(0.19)
December 31, 2023 (restated)	Q3 2024	(37,092)	-	-

¹ The Q2 2025 interim financial statements were restated to correct an error related to the Nevada Vanadium Deconsolidation (see above). The Q4 2025 quarterly figure shown in the table above was derived based on the revised quarterly information. There was no change to the total net loss reported for the year ended March 31, 2025.

Net loss attributable to shareholders of the Company for the three months ended September 30, 2025 was \$1,748,492, and a net loss of \$175,412 was attributable to non-controlling interests for a total net loss of \$1,923,904, as compared to a net loss of \$3,071,235 for the three months ended September 30, 2024. The prior year quarter's net loss is comprised of \$2,891,724 attributable to shareholders of the Company and a net loss of \$179,511 attributable to non-controlling interests.

Of note for the current quarter as compared to the prior year quarter, are the following items:

- Professional fees increased to \$165,586, compared to \$29,512, mainly attributable to legal fees in connection with an arbitration against Andean Precious Metals Corp. ("APM") related to the Andean Dispute (see *Contingencies* section below for further details) during the current quarter.
- Salaries and benefits decreased to \$136,362, compared to \$161,200. The decrease in the current quarter is mainly attributable to the Nevada Vanadium Deconsolidation and the resignation of the Company's Chief Operating Officer.
- Share-based payments of \$95,310 compared to \$245,485. Share-based payments is a non-cash expense, and such expense is recognized in profit or loss over the vesting period of the underlying share purchase options granted to certain directors, officers, employees and consultants of the Company. The current quarter amount is reduced partially as a result of the Oracle Deconsolidation.
- Other income of \$16,576 this quarter compared to \$167,004 during the prior year quarter. The current quarter amount is mainly comprised of a gain of \$12,597 related to the sale of Oracle shares, whereas the prior year quarter amount is primarily related to a gain of \$166,946 in connection with bad debt recoveries from the Company's Bolivian activities.
- A gain of \$154,999 from the sale of the Triunfo Project to CleanTech this quarter.
- Ulaan Ovoo tax assessment interest of \$621,499 this quarter, relatively consistent with \$652,678 during the prior year quarter. These amounts are in connection with the Ulaan Ovoo Tax Assessment and Ulaan Ovoo License Transfer.
- A loss from equity accounted investment in CleanTech of \$202,520 this quarter, compared to \$718,662. The prior year quarter amount is attributable to CleanTech impairing its Minago Project, resulting in the Company's proportionate share of losses of

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

\$598,051. In addition and as a result of the Oracle Deconsolidation, the equity accounting of CleanTech has also been deconsolidated from the Company's consolidated financial statements effective August 14, 2025.

- A loss from deconsolidation of Oracle of \$582,195 this quarter. Effective August 14, 2025, the Company deconsolidated Oracle as a result of losing defacto control from the sale of shares of Oracle. As at September 30, 2025, the Company owned approximately 12% of Oracle.
- A loss from deconsolidation of Nevada Vanadium of \$1,188,283 in the prior year quarter. Effective August 16, 2024, the Company deconsolidated Nevada Vanadium as it was acquired by CleanTech.
- Gain from changes in interest in equity accounted investment of \$nil compared to \$271,087. The gain in the prior year quarter results from changes in the Company's interest in CleanTech.
- A loss from care and maintenance of coal properties of \$80,993 this quarter, compared to \$176,048 in the prior year quarter. The current quarter amount is mainly comprised of a loss of \$27,638 related to a change in provision of closure and reclamation for the Ulaan Ovoo Project, related bad debt expense of \$4,068, and \$49,287 related to expenses of the Ulaan Ovoo Project. The prior year quarter is mainly comprised of a loss of \$224,033 related to a change in provision of closure and reclamation for the Ulaan Ovoo Project, and related bad debt expense of \$5,165, partially offset by \$53,150 related to income from the Ulaan Ovoo Project.
- A gain of \$376,035 from fair value changes in derivative liabilities this quarter, compared to \$19,011 during the prior year quarter. The current quarter gain is mainly attributable to fair value changes of certain warrants which are considered derivative liabilities as the Company had an option to reduce the exercise price of such warrants. Changes in the Company's share price directly impact these derivative liabilities. The prior year quarter is mainly comprised of commodity and treasury contracts acquired or disposed by the Company.

Variations Over the Quarters

Q1 2026 resulted in a net loss of \$2,074,165, mainly comprised of general and administrative expenses totalling \$867,388, recognizing a loss of \$753,038 from fair value changes in derivative liabilities, and Ulaan Ovoo tax assessment interest of \$622,161. General and administrative expenses include, but not limited to, salaries and benefits of \$167,767, consulting and management fees of \$191,275, professional fees of \$232,804, and share-based payments of \$114,638.

Q4 2025 resulted in a net loss of \$1,354,356, mainly comprised of general and administrative expenses totalling \$907,728, recognizing a loss from impairment in investment in CleanTech of \$785,119 and Ulaan Ovoo tax assessment interest of \$658,385, partially offset by a gain from equity accounted investment in CleanTech of \$633,130. General and administrative expenses include, but not limited to, salaries and benefits of \$250,074, consulting and management fees of \$183,181, professional fees of \$179,590, and share-based payments of \$99,817.

Q3 2025 resulted in a net loss of \$2,165,212, mainly comprised of general and administrative expenses totalling \$886,584, recognizing a loss from equity accounted investment in CleanTech of \$323,035 and Ulaan Ovoo tax assessment interest of \$664,826, other loss of \$219,538, which includes \$219,613 related to bad debt expense from the Company's Bolivian activities. General and administrative expenses include, but not limited to, salaries and benefits of \$231,114, share-based payments of \$157,341, and consulting and management fees of \$178,597.

Q2 2025 resulted in a net loss of \$3,071,235, mainly comprised of general and administrative expenses totalling \$775,973, recognizing Ulaan Ovoo tax assessment interest of \$652,678, a loss from equity accounted investment in CleanTech of \$718,662 and a loss from the Nevada Vanadium Deconsolidation of \$1,188,283. General and administrative expenses include, but not limited to, salaries and benefits of \$161,200, share-based payments of \$245,485, and consulting and management fees of \$131,382.

Q1 2025 resulted in a net loss of \$2,780,868, mainly comprised of general and administrative expenses totalling \$1,133,043, and recognizing a loss from equity accounted investment in CleanTech of \$752,015 and Ulaan Ovoo tax assessment interest of \$648,757. General and administrative expenses include, but were not limited to, salaries and benefits of \$402,958, share-based payments of \$121,871, professional fees of \$169,209, and consulting and management fees of \$138,336.

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

Q4 2024 resulted in a net loss of \$7,444,612, comprised of general and administrative expenses totalling \$2,025,385, recognizing a loss of \$3,517,132 in connection with the deconsolidation of CleanTech and the corresponding adoption of *Exposure Draft ED/2014/4: Measuring Quoted Investments in Subsidiaries, Joint Ventures and Associates at Fair Value*, effective January 1, 2024, and an impairment of exploration and evaluation asset of \$1,249,257 in connection with the Company's El Triunfo Project in Bolivia and Ulaan Ovoo tax assessment interest of \$636,775. General and administrative expenses include, but were not limited to, salaries and benefits of \$329,826, share-based payments of \$360,116, professional fees of \$502,981, and consulting and management fees of \$437,076.

Q3 2024 resulted in a net loss of \$154,870, largely a result of recognizing a gain from the deconsolidation of CleanTech of \$2,144,042, partially offset by general and administrative expenses totalling \$1,398,314, Ulaan Ovoo tax assessment interest of \$641,371 and other items. General and administrative expenses include amortization of \$278,089, salaries and benefits of \$250,141, share-based payments of \$200,584.

Year to Date

Net loss attributable to shareholders of the Company for the six months ended September 30, 2025 was \$3,739,560, and \$258,509 was attributable to non-controlling interests for a total net loss of \$3,998,069, as compared to a net loss of \$5,852,103 for the six months ended September 30, 2024. The prior year period net loss is comprised of \$4,985,252 attributable to shareholders of the Company and \$866,851 attributable to non-controlling interests.

Of note for the current period as compared to the prior year period, are the following items:

- Consulting and management fees increased to \$305,814, compared to \$269,718. The increase in the current period is mainly attributable to personnel changes including the addition of the Company's Chief Legal Officer.
- Professional fees increased to \$398,390, compared to \$198,721 mainly attributable to legal fees in connection with an arbitration against APM related to the Andean Dispute (see *Contingencies* section below for further details) during the current period.
- Salaries and benefits decreased to \$304,129, compared to \$564,158. The decrease in the current period is mainly attributable to the Nevada Vanadium Deconsolidation and the resignation of the Company's Chief Operating Officer.
- Share-based payments of \$209,948 compared to \$367,356. Share-based payments is a non-cash expense, and such expense is recognized in profit or loss over the vesting period of the underlying share purchase options granted to certain directors, officers, employees and consultants of the Company. The current period amount is partially reduced as a result of the Oracle Deconsolidation.
- Stock exchange and shareholder services decreased to \$101,662, compared to \$203,468. The decrease in the current period is mainly attributable to the Nevada Vanadium and Oracle Deconsolidation.
- Other loss of \$17,254 this period compared to other income of \$178,986 during the prior year period. The current period amount is mainly comprised of a loss of \$18,940 related to bad debt expense from the Company's Bolivian activities, whereas prior year period amounts is mainly comprised of a gain of \$198,426 related to bad debt recoveries from the Company's Bolivian activities, partially offset by certain Fish Creek Ranch and other expenses totalling \$21,841. The Fish Creek Ranch was a property owned by Nevada Vanadium which the Company included in its consolidated financial statements up August 16, 2024, the date which CleanTech acquired Nevada Vanadium.
- A gain of \$154,999 from the sale of the Triunfo Project to CleanTech this period.
- Ulaan Ovoo tax assessment interest of \$1,243,660 this period, relatively consistent with \$1,301,435 during the prior year period. These amounts are in connection with the Ulaan Ovoo Tax Assessment and Ulaan Ovoo License Transfer.
- A loss from equity accounted investment in CleanTech of \$250,560 this period, compared to \$1,470,677. The higher amount in the prior year period is attributable to CleanTech impairing its Minago Project, resulting in the Company's proportionate share of losses

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

of \$1,285,210. In addition and as a result of the Oracle Deconsolidation, the equity accounting of CleanTech has also been deconsolidated from the Company's consolidated financial statements effective August 14, 2025.

- A loss from equity accounted investment in Oracle of \$102,038 this period, compared to \$nil. Oracle was deconsolidated from the Company's consolidated financial statements effective August 14, 2025, and commenced being accounted for under the equity method.
- A loss from deconsolidation of Oracle of \$582,195 this period. Effective August 14, 2025, the Company deconsolidated Oracle as a result of losing defacto control from the sale of shares of Oracle. As at September 30, 2025, the Company owned approximately 12% of Oracle.
- A loss from deconsolidation of Nevada Vanadium of \$1,188,283 during the prior year period compared to \$nil this period. Effective August 16, 2024, the Company deconsolidated Nevada Vanadium as it was acquired by CleanTech.
- Gain from changes in interest in equity accounted investment of \$nil compared to \$271,087. The gain in the prior year period results from changes in the Company's interest in CleanTech.
- A gain from care and maintenance of coal properties of \$2,308 this period, compared to a loss of \$145,640 in the prior year period. The current period amount is mainly comprised of a gain of \$148,413 related to a change in provision of closure and reclamation for the Ulaan Ovoo Project, partially offset by related bad debt expense of \$11,248, and \$134,857 related to costs of the Ulaan Ovoo Project. The prior year period is mainly comprised of a loss of \$8,790 related to a change in provision of closure and reclamation for the Ulaan Ovoo Project, related bad debt expense of \$93,348, and \$43,502 related to costs of the Ulaan Ovoo Project.
- Loss from fair value change in derivative liabilities of \$377,003 this period compared to \$178,934 in the prior year period. The current period loss is mainly attributable to fair value changes of certain warrants which are considered derivative liabilities as the Company had an option to reduce the exercise price of such warrants. Changes in the Company's share price directly impact these derivative liabilities. The prior year period amount is mainly comprised of \$187,948 related to commodity and treasury contracts acquired or disposed by the Company during the current period, partially offset by \$9,014 in connection with a potential liability owed to a third party to be paid in shares of Silver Elephant.

Liquidity And Capital Resources

The Company utilizes existing cash received from prior issuances of equity instruments to provide liquidity to the Company and finance exploration projects.

As at the Financial Position Date, the Company had a working capital deficiency of \$31,641,780 compared to \$30,825,657 at March 31, 2025.

On May 5, 2025, the Company closed the first tranche of a non-brokered private placement offering raising gross proceeds of \$696,830 through the issuance sale of 3,871,277 units at a price of \$0.18 per unit. Each unit consists of one common share of the Company and one share purchase warrant with each whole warrant entitling the holder to purchase one additional common share of the Company at a price of \$0.30 per share for a period of three years from issuance. In connection with the closing, 193,989 units were issued as finders' fees. Proceeds of the private placement were used for general corporate purposes.

On June 25, 2025, the Company closed the first tranche of a non-brokered private placement offering raising gross proceeds of \$172,000 through the issuance sale of 860,000 units at a price of \$0.20 per unit. Each unit consists of one common share of the Company and one share purchase warrant with each whole warrant entitling the holder to purchase one additional common share of the Company at a price of \$0.30 per share for a period of three years from issuance. In connection with the closing, 33,250 units were issued as finders' fees. Proceeds of the private placement were used for general corporate purposes.

On June 27, 2025, the Company closed the second and final tranche of a non-brokered private placement offering raising gross proceeds of \$44,000 through the issuance sale of 220,000 units at a price of \$0.20 per unit. Each unit consists of one common share

(Expressed in Canadian dollars, except where indicated)

of the Company and one share purchase warrant with each whole warrant entitling the holder to purchase one additional common share of the Company at a price of \$0.30 per share for a period of three years from issuance. Proceeds of the private placement were used for general corporate purposes.

On September 17, 2025, the Company closed the first tranche of a non-brokered private placement offering raising gross proceeds of \$264,308 through the issuance sale of 1,651,926 units at a price of \$0.16 per unit. Each unit consists of one common share of the Company and one share purchase warrant with each whole warrant entitling the holder to purchase one additional common share of the Company at a price of \$0.20 per share for a period of three years from issuance. Proceeds of the private placement were used for general corporate purposes.

On October 15, 2025, the Company closed the second and final tranche of a non-brokered private placement offering raising gross proceeds of \$445,411 through the issuance sale of 2,783,824 units at a price of \$0.16 per unit. Each unit consists of one common share of the Company and one share purchase warrant with each warrant entitling the holder to purchase one additional common share of the Company at a price of \$0.20 per share for a period of three years from issuance. Proceeds of the private placement will be used for general corporate purposes.

Cash flow information:

	Six Months Ended	
	September 30, 2025 (\$)	September 30, 2024 (\$)
Cash used in operating activities	(820,371)	(1,927,076)
Cash used in investing activities	(462,165)	(647,447)
Cash from financing activities	1,247,938	1,614,489
Cash, end of the period	237,096	1,223,482

Cash Flow Highlights

Operating activities: During the six months ended September 30, 2025, the Company used \$820,371 in operating activities, compared to \$1,927,076 during the prior year period. The decrease in cash used in operating activities is mainly attributable to the Company managing its working capital and the Nevada Vanadium and Oracle Deconsolidation.

Investing activities: During the six months ended September 30, 2025, the Company used \$462,165 in investing activities, compared to \$647,447 during the prior year period. During the current period, the Company invested \$1,140,859 in its Pulacayo Paca Project, and \$4,583 in derivative assets, and deconsolidated Oracle on August 14, 2025, resulting in a cash decrease of \$53,048. These were partially offset by \$84,009 from the sale of shares of CleanTech, \$155,000 from the sale of the Triunfo Project, and \$497,316 from the sale of shares of Oracle. During the prior year period, the Company invested \$465,920 in its exploration and evaluation assets and invested \$178,934 in derivative assets, and deconsolidated Nevada Vanadium on August 16, 2024, resulting in a cash decrease of \$18,335. These were partially offset by \$15,742 from the sale of shares of CleanTech.

Financing activities: During the six months ended September 30, 2025, the Company received \$1,117,138 from share issuances, and \$141,000 from subscription receipts for a private placement in progress. These were partially offset by lease payments of \$10,200 for the Company's Vancouver office. During the prior year period, the Company received \$1,549,526 from share issuances, \$399,150 from subsidiary share issuances, and \$21,500 from stock options exercised. These were partially offset with a loan repayment of \$344,240 in connection with the Fish Creek Ranch and lease payments of \$11,447 for the Company's Vancouver office. The Fish Creek Ranch was a property owned by Nevada Vanadium which the Company included along with the related loan in its consolidated financial statements up August 16, 2024, the date which CleanTech acquired Nevada Vanadium.

As at the Financial Position Date, the Company had cash of \$237,096, and current liabilities of \$31,954,283. The Company will need to conduct additional financings to meet working capital requirements, and obligations as they become due.

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

**Off-Balance Sheet Arrangements**

The Company has no off-balance sheet arrangements.

Related Party Transactions

The Company has a cost sharing agreement (the "CSA") with CleanTech and Oracle pursuant to which the companies provide each other with general, technical and administrative services, as reasonably requested, on a cost reimbursement basis.

During the three and six months ended September 30, 2025, the Company had related party transactions with key management personnel who provide management and consulting services to the Company. Key management personnel are persons responsible for planning, directing and controlling the activities of an entity, and include, but are not limited to, the Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO"), Chief Legal Officer ("CLO") and executive and non-executive directors.

A summary of related party transactions is as follows:

	Three Months Ended		Six Months Ended	
	September 30, 2025 (\$)	September 30, 2024 (\$)	September 30, 2025 (\$)	September 30, 2024 (\$)
CSA fees charged by CleanTech, a company with certain directors and officers in common	-	37,594	-	125,448
CSA recoveries from CleanTech	(106,010)	(72,747)	(217,165)	(159,349)
CSA fees charged by Nevada Vanadium, a company with certain directors and officers in common	-	7,216	-	7,216
CSA recoveries from Nevada Vanadium	-	(50,453)	-	(50,453)
CSA recoveries from Oracle	(17,545)	-	(17,545)	-
Management fees charged by Linx Partners Ltd., a company controlled by John Lee, Director, CEO and Executive Chairman of the Company	48,938	105,000	157,875	210,000
Directors' fees	22,200	22,200	48,400	46,400
Salaries and benefits paid to key management of the Company	109,461	140,618	214,541	243,525
Salaries and benefits paid to former key management of the Company	11,200	-	31,200	68,009
Share-based payments – John Lee	24,113	44,561	42,935	57,155
Share-based payments – directors	13,592	20,196	22,610	28,425
Share-based payments – former directors	-	260	-	1,339
Share-based payments – key management of the Company	26,839	62,867	49,739	72,377

The Company had balances due to related parties as follows:

	September 30, 2025 (\$)	March 31, 2025 (\$)
Due to CleanTech	(5,890)	(12,276)
Due to Oracle	(297,794)	-
Directors' fees payable	(98,800)	(48,400)
Management fees payable to John Lee	(59,000)	(4,750)

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

Contingencies

On September 11, 2023, the Company entered into a sales and purchase agreement (the "SPA") with APM and its subsidiary (together "APM Group"), for the sale of up to 800,000 tonnes (the "SPA Quantity") of silver-bearing oxide materials from the Company's Paca property, within the Pulacayo Paca Project. In addition, the Company entered into a master services agreement (the "MSA") with APM Group to provide expertise in mining operations, community relations, logistics and access to technical and geological information, in exchange for APM Group agreeing to pay the Company an aggregate of \$6,959,500 (US\$5,000,000) (the "MSA Payments") in installments, of which \$4,286,358 (US\$3,150,000) has been received.

On December 30, 2024, the Company terminated the MSA and SPA (the "MSA and SPA Termination") as a result of APM Group's failure to pay a \$1,391,900 (US\$1,000,000) bonus payment based on silver price reaching a certain threshold (the "First Additional Consideration"). The First Additional Consideration became due once the London Bullion Market Association silver spot price averaged over US\$28 per oz for the previous 260 trading-day interval. The Company maintains that the First Additional Consideration is payable and is pursuing appropriate action.

On January 14, 2025, the Company commenced an arbitration in British Columbia against APM related to the MSA and SPA Termination (the "Andean Dispute"), seeking payment of the First Additional Consideration. The MSA governs the parties' mining activities in Bolivia. On March 14, 2025, APM filed a counter claim against the Company for US\$2,097,510, alleging breaches of contract and payments owed. The Company evaluated the applicable IFRS' for the accounting treatment of the Andean Dispute, applying IAS 37 – Provisions, Contingent Liabilities and Contingent Assets and recorded \$1,174,860 (US\$860,451) as advances that still need to be settled from either deduction of eligible costs under the MSA/SPA or refunded, and included in accounts payable and accrued liabilities. The Company maintains APM's counter claim is without merit and such amount is recorded only for IFRS compliance purposes.

Proposed Transactions

Other than as disclosed elsewhere in this document, there are no other proposed transactions as at the date of this MD&A.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions used by management where there is risk of material adjustments to assets and liabilities in future accounting periods include the estimated useful lives of depreciated and amortized assets, assumptions used in determination of the fair value of share-based payments, estimation of taxes and related penalties and interest, the timing and amount of decommissioning, restoration and similar liabilities and contingent liabilities.

The Company assesses its mineral properties' rehabilitation provision at each reporting date or when new material information becomes available. Exploration, development and mining activities are subject to various laws and regulations governing the protection of the environment. In general, these laws and regulations are continually changing, and the Company has made, and intends to make in the future, expenditures to comply with such laws and regulations. Accounting for reclamation obligations requires management to make estimates of the future costs that the Company will incur to complete the reclamation work required to comply with existing laws and regulations at each location. Actual costs incurred may differ from those amounts estimated.

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in preparing the Company's financial statements include determination of whether the Company has title and rights to the MPC Area within its Pulacayo Paca Project, tax assessments, specifically the Ulaan Ovoo Tax Assessment, contingent liabilities, the assumption that the Company will continue as a going concern and whether the Company has significant influence over other entities, classification of expenditures as exploration and evaluation expenditures or operating expenses, the classification of financial instruments and determining de facto control.

Changes in Accounting Policies and Standards

Future Changes in Accounting Standards

In April 2024, the IASB issued *IFRS 18, Presentation and Disclosure in Financial Statements* ("IFRS 18"), the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements; and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its 'operating profit or loss'. IFRS 18 will apply for reporting periods beginning on or after 1 January 2027 and also applies to comparative information.

The Company is currently evaluating the impact of IFRS 18 on its consolidated financial statements.

Certain accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's consolidated financial statements.

Capital Management

Management considers its capital structure to consist of share capital, stock options and warrants. The Company manages its capital structure and makes adjustments to it, based on the funds available to, and required by the Company in order to support the acquisition, exploration and development of exploration and evaluation assets. The Board of Directors does not establish quantitative returns on capital criteria for management. In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors.

The properties in which the Company currently holds interests are predominantly in the exploration and development stage; as such, the Company is dependent on external financing to fund its activities. In order to carry out exploration and development plans and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. There were no changes in management's approach to capital management during the three and six months ended September 30, 2025. Neither the Company nor its subsidiaries are subject to externally imposed capital requirements.

Fair Value Measurements and Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. The Company utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability (for example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value option contracts), or inputs that are derived principally from or corroborated by observable market data or other means; and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

The Company has determined the estimated fair values of its financial instruments based upon appropriate valuation methodologies. As at the Financial Position Date, there were no financial assets measured and recognized in the statement of position that would be categorized as Level 2 or Level 3 in the fair value hierarchy above.

The fair value of the Company's financial instruments including cash, accounts payable and accrued liabilities and due to related parties approximates their carrying value due to the immediate or short-term maturity of these financial instruments. Restricted cash equivalents included in other non-current assets is readily convertible into cash, and therefore its carrying value approximates fair value. Derivative assets and liabilities except when the Company issues a unit comprising common shares and warrants that have variability in its settlement ("Variable Warrants") are recorded at fair value based on the quoted market price at the end of each reporting period with changes in fair value through profit or loss. As at the Financial Position Date, the fair value of: 1) derivative assets is \$nil (March 31, 2024 - \$5,099), and 2) derivative liabilities is \$1,760,591 (March 31, 2024 - \$987,018). The Company does not offset financial assets with financial liabilities. Variable Warrants are classified as level 2. There were no transfers between Level 1, 2 and 3 for the three and six months ended September 30, 2025.

The Company's financial instruments are exposed to certain financial risks. The risk exposures and the impact on the Company's financial instruments at the Financial Position Date are summarized below. The Board of Directors periodically reviews with management the principal risks affecting the Company and the systems that have been put in place to manage these risks.

(a) Liquidity risk

Liquidity risk is the risk that an entity will be unable to meet its financial obligations as they fall due. The Company manages liquidity risk by preparing cash flow forecasts of upcoming cash requirements. As at the Financial Position Date, the Company had a cash balance of \$237,096 (March 31, 2025 - \$271,838) and accounts payable and accrued liabilities of \$2,554,225 (March 31, 2025 - \$2,518,677). Liquidity risk is assessed as very high.

The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support normal operation requirements as well as the growth and development of its mineral property interests. The Company coordinates this planning and budgeting process with its financing activities through the capital management process in normal circumstances.

(b) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk primarily associated with cash, restricted cash equivalents included in other non-current assets and receivables, net of allowances. The carrying amount of financial assets included on the statements of financial position represents the maximum credit exposure.

(c) Market risk

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company's cash and restricted cash equivalents included in other non-current assets primarily include highly liquid investments that earn interest at market rates that are fixed to maturity. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have significant impact on the fair values of the financial instruments as of the Financial Position Date. The Company manages interest rate risk by maintaining an investment policy that focuses primarily on preservation of capital and liquidity.

(ii) Foreign currency risk

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. The Company has foreign exploration and development projects in Mongolia and Bolivia and undertakes transactions in various foreign currencies. The Company is therefore exposed to foreign currency risk arising

from transactions denominated in a foreign currency and the translation of financial instruments denominated in US dollars, Mongolian tugrik, and Bolivian boliviano into its reporting currency, the Canadian dollar.

(iii) Commodity and equity price risk

Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. Commodity prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for these commodities, the level of interest rates, the rate of inflation, investment decisions by large holders of commodities including governmental reserves and stability of exchange rates can all cause significant fluctuations in prices. Such external economic factors are in turn influenced by changes in international investment patterns and monetary systems and political developments. The Company is also exposed to price risk with regards to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market.

(iv) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's derivative financial liability includes Variable Warrants. A 10% increase or decrease in the market price of common shares of the Company has a corresponding effect of approximately \$176,000 to net loss.

The Company closely monitors commodity prices, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in value may be significant.

Sensitivity Analysis

A 1% change in interest rates does not have a material effect on the Company's profit or loss and equity.

The Company has certain cash balances, and accounts payables denominated in either the US Dollar, Mongolian Tugrik or Bolivian Boliviano (the "Foreign Currencies"), currencies other than the functional currency of Company. Based on the above, net exposures as at the Financial Position Date, with other variables unchanged, a 10% strengthening (weakening) of the Canadian dollar against the Mongolian Tugrik would impact net loss and comprehensive loss with other variables unchanged by approximately \$2,498,000. A 10% strengthening (weakening) of the Canadian dollar against the Bolivian Boliviano would impact net loss and comprehensive loss with other variables unchanged by approximately \$134,000. A 10% strengthening (weakening) of the US Dollar against the Canadian Dollar would impact net gain with other variables unchanged by approximately \$2,000. The Company currently does not use any foreign exchange contracts to hedge this currency risk.

Outstanding Share Data

The Company has an authorized capital of an unlimited number of common shares without par value. The table below represents the Company's capital structure as at the dates presented:

	As at Date Of this MD&A	September 30, 2025
Common shares issued and outstanding	51,786,669	48,649,747
Share purchase options outstanding	4,915,125	4,599,500
Share purchase warrants	23,294,374	20,475,300

Risks And Uncertainties

The Company's business is the exploration, evaluation and development of mining properties. Thus, the Company's operations are speculative due to the high-risk nature of its business. The following list details existing and future material risks to the Company. The risks listed below are not arranged in any particular order and are not exhaustive. Additional risks and uncertainties not currently known to the Company, or those that it currently deems to be immaterial, may become material and adversely affect the Company. The realization of any of these risks may materially and adversely impact the Company's business, financial condition or results of operations and/or the market price of the Company's securities. Certain risk factors are discussed in more detail under the heading "Risk Factors" in the AIF, which is available under the Company's SEDAR+ profile at www.sedarplus.ca.

- The Company's history of net losses;
- Capital costs, operating costs, production, and economic returns;
- Exploration and development risks;
- The Company has no history of profitable mineral production;
- The risks inherent to the estimation of mineral reserves and mineral resources;
- Environmental risks;
- Foreign operations risks associated with operating in Boliva and Mongolia;
- The reform of the mining laws, including the General Mining Act of 1872 in the U.S;
- Government approvals and permits;
- Risks associated with the Company's property and mining interests;
- Risks associated with the Company's mineral claims, mining leases, licenses and permits;
- Title risks;
- Risks associated with claims from Indigenous or community groups;
- Risks associated with competition;
- Inherent risks;
- The Company's reliance on key personnel;
- The volatility of mineral prices,
- Currency fluctuations;
- Global, national and local financial conditions;
- Risks associated with third-party contractors;
- Anti-bribery legislation;
- Uninsured risks;
- The Company has no history of making dividend payments;
- Related party transactions;
- Litigation and regulatory proceedings;
- Cyber security risks;
- Risks associated with being a foreign private issuer;
- Risks associated with non-Canadian investors;
- Risks associated with the Company's operations in emerging markets, including but not limited to restrictions on the repatriation of funds; and
- Emerging risks, as described below.

An emerging risk is a risk not well understood at the current time and for which the impacts on strategy and financial results are difficult to assess or are in the process of being assessed.

Capital Resources

As an exploration company, the Company has no regular cash in-flow from operations, and the level of operations is principally a function of availability of capital resources. The Company's capital resources are largely determined by the strength of the junior resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for investor support of its projects. To date, the principal sources of funding have been equity and debt financing. Many factors influence the Company's ability to raise funds, and there is no assurance that the Company will be successful in obtaining adequate financing with favourable terms, or at all, for these or other purposes including general working capital purposes. For the foreseeable future, as

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

existing properties are explored, evaluated and developed, the Company will continue to seek capital through the issuance of equity, strategic alliances or joint ventures, and debt.

The Company expects to continue requiring cash for operations and exploration and evaluation activities as expenditures are incurred while no revenues are generated. Therefore, its continuance as a going concern is dependent upon its ability to obtain adequate financing to fund future operations based on annual budgets approved by the Company's board of directors, consistent with established internal control guidelines, and programs recommended in certain technical reports. The Company has managed its working capital by controlling its spending on its properties and operations. Due to the ongoing planned advancement of Pulacayo Paca Project milestones, the Company will continue to incur costs associated with exploration, evaluation and development activities, while no revenues are being generated.

Disclosure Controls and Procedures ("DC&P")

Disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in the securities legislation and include controls and procedures designed to ensure that information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted under securities legislation is accumulated and communicated to the Company's management, including its CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

The Company's CEO and CFO (the "Certifying Officers") are responsible for establishing and maintaining adequate DC&P. Under the supervision and with the participation of the Certifying Officers, the Company evaluated the effectiveness of its DC&P in accordance with requirements of National Instrument 52-109 ("NI 52-109"). As of March 31, 2025, based on the evaluation, the Company's Certifying Officers concluded that the Company's DC&P were effective.

There have been no changes in the Company's disclosure controls and procedures during the current quarter that have materially affected, or are reasonably likely to materially affect, disclosure controls and procedures.

Internal Controls over Financial Reporting ("ICFR")

The Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. The Company's internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail accurately and fairly reflect the transactions, acquisition and disposition of assets and liabilities;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with IFRS and that receipts and expenditures are being made only in accordance with the authorization of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets, and incurrence of liabilities, that could have a material effect on the financial statements.

The Company evaluated the effectiveness of its ICFR as of March 31, 2025 based on the Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on the evaluation, the Company's Certifying Officers concluded that the Company's ICFR was effective as of March 31, 2025.

There have been no changes in the Company's internal control over financial reporting during the current quarter that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

Limitations of Controls and Procedures

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, believe that any disclosure controls and procedures or internal controls over financial reporting, no matter how well conceived and operated, can provide only reasonable,

not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, they cannot provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been prevented or detected. These inherent limitations include the realities that judgements in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by unauthorized override of the control. The design of any systems of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Accordingly, because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Production Disclaimer

The Company based its production decision at Pulacayo Paca Project on internal production models (the "Internal Model") and not on a feasibility study or pre-feasibility study of mineral reserves demonstrating economic and technical viability. The Company did not complete a feasibility study or pre-feasibility study in connection with its production decision due to, among other factors, the ability to move ahead to development and production based on comparatively low initial capital costs due to foregoing the need to construct a processing facility and the Company's knowledge of the resource base. As a result, there is increased uncertainty and there are multiple technical and economic risks of failure which are associated with this production decision. These risks, among others, include the inclusion of inferred mineral resources in the Internal Model that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves.

Furthermore, there are risks associated with areas that are analyzed in more detail in a pre-feasibility and feasibility study, such as applying economic analysis to resources and reserves, more detailed metallurgy and a number of specialized studies in areas such as mining and recovery methods, market analysis, and environmental and community impacts. There is no assurance given all of the known and potentially unknown risks associated with Pulacayo Paca Project that the Company will be able to profitably carry-on mining operations. In addition, there is no assurance that production will be profitable or that continued exploration of the Pulacayo Paca Project will demonstrate adequate additional mineralization which can be mined economically, such that mining operations at Paca may not be sustainable beyond currently estimated resources or in the medium to long term or at all.

Cautionary Note Regarding Forward-Looking Statements

Certain statements contained in this MD&A constitute "forward-looking statements" within the meaning of United States securities laws and "forward-looking information" within the meaning of Canadian securities laws and are intended to be covered by the safe harbors provided by such regulations (such forward-looking statements and forward-looking information are collectively referred to herein as "forward-looking statements"). These forward-looking statements concern anticipated developments in the Company's continuing and future operations in the United States, Canada, Bolivia and Mongolia, and the adequacy of the Company's financial resources and financial projections.

Forward-looking statements in this MD&A are frequently, but not always, identified by words such as "expects", "anticipates", "intends", "believes", "estimates", "potentially" or similar expressions, or statements that events, conditions or results "will", "may", "would", "could" or "should" occur or are "to be" achieved, and statements related to matters which are not historical facts. Information concerning management's expectations regarding the Company's future growth, results of operations, performance, business prospects and opportunities may also be deemed to be forward-looking statements, as such information constitutes predictions based on certain factors, estimates and assumptions subject to significant business, economic, competitive and other uncertainties and contingencies, and involve known and unknown risks which may cause the actual results, performance, or achievements to be different from future results, performance, or achievements contained in the forward-looking statements. Such forward-looking statements include but are not limited to statements regarding the Company's planned and future exploration and/or development of any of the Company's projects; permitting and feasibility any of the Company's projects; political instability and social unrest in Bolivia and other jurisdictions where the Company operates; the Company's goals regarding exploration, and development of, and production from its projects, and regarding raising capital and conducting further exploration and developments of its properties; approval by regulatory authorities and over-the-counter markets of filings or applications; the Company's future business plans; the Company's future financial and operating performance; the future price of silver, lead, zinc, vanadium and other metals; expectations regarding any environmental issues that may affect production or planned or future exploration and development programs and the potential impact of complying with existing and proposed environmental laws and regulations; the ability to obtain

or maintain any required permits, licenses or other necessary approvals for the exploration or development of the Company's projects; government regulation of mineral exploration and development operations in Bolivia and other relevant jurisdictions; the Company's reliance on key management personnel, advisors and consultants; the volatility of global financial markets; the timing and amount of estimated future operating and exploration expenditures; the costs and timing of the development of new deposits; the continuation of the Company as a going concern; the likelihood of securing project financing; the impacts of changes in the legal and regulatory environment in which the Company operates; the timing and possible outcome of any pending litigation and regulatory matters; and other information concerning possible or assumed future results of the Company's operations, including: estimated future coal production at any of the Company's coal properties, and other information concerning possible or assumed future results of operations of the Company.

Statements relating to mineral resources are deemed to be forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the mineral resources described exist in the quantities predicted or estimated and may be profitably produced in the future. Estimated values of future net revenue do not represent fair market value. There is no certainty that it will be commercially viable to produce any portion of the mineral resources.

Forward-looking statements are not guarantees of future performance and are based upon a number of estimates and assumptions of management at the date the statements are made including, among other things, the following: timely receipt of regulatory and governmental approvals (including licenses and permits) for the development, construction and production of the Company's properties and projects; there being no significant disruptions affecting operations, whether due to labour disruptions, pandemics; currency exchange rates being approximately consistent with current levels; certain price assumptions for silver, lead, zinc, vanadium and other metals; prices for and availability of fuel and electricity; parts and equipment and other key supplies remaining consistent with current levels and prices; production forecasts meeting expectations; the accuracy of the Company's current mineral resource estimates and of any metallurgical testing completed to date; labour and materials costs increasing on a basis consistent with the Company's current expectations; any additional required financing being available on reasonable terms; market developments and trends in global supply and demand for silver, lead, zinc, nickel, vanadium and other metals meeting expectations; favourable operating conditions; political stability; access to necessary financing; stability of labour markets and in market conditions in general; and estimates of costs and expenditures to complete the Company's programs. The Company has no assurance that any of these assumptions will prove to be correct.

Many of these assumptions are inherently subject to significant business, social, economic, political, regulatory, competitive and other risks and uncertainties, contingencies, and other factors that are not within the control of the Company and could thus cause actual performance, achievements, actions, events, results or conditions to be materially different from those projected in the forward-looking statements. Furthermore, such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from those reflected in the forward-looking statements, whether expressed or implied. Such factors include, among others, the following: the Company is an exploration stage company; the cost, timing and amount of estimated future capital, operating exploration, acquisition, development and reclamation activities; the volatility of the market price of the Common Shares; judgment of management when exercising discretion in the use of proceeds from offerings of securities; sales of a significant number of Common Shares in the public markets, or the perception of such sales, could depress the market price of the Common Shares; potential dilution with the issuance of additional Common Shares; none of the properties in which the Company has a material interest have mineral reserves; estimates of mineral resources are based on interpretation and assumptions and are inherently imprecise; the Company has not received any material revenue or net profit to date; exploration, development and production risks; no history of profitable mineral production; actual capital costs, operating costs, production and economic returns may differ significantly from those the Company has anticipated; foreign operations and political condition risks and uncertainties; legal and political risk; amendments to local laws; the ability to obtain, maintain or renew underlying licenses and permits; title to mineral properties; environmental risks; competitive conditions in the mineral exploration and mining business; availability of adequate infrastructure; the ability of the Company to retain its key management and employees and the impact of shortages of skilled personnel and contractors; limits of insurance coverage and uninsurable risk; reliance on third party contractors; the availability of additional financing on reasonable terms or at all; foreign exchange risk; impact of anti-corruption legislation; recent global financial conditions; changes to the Company's dividend policy; conflicts of interest; cyber security risks; litigation and regulatory proceedings; the obligations which the Company must satisfy in order to maintain its interests in its properties; the influence of third-party stakeholders; the Company's relationships with the communities in which it operates; human error; the speculative nature of mineral exploration and development in general, including the risk of diminishing quantities or grades of mineralization; and other risks and the factors discussed under the heading "Risk Factors" in the AIF and in analogous disclosure in other disclosure documents of the Company available on SEDAR+ at www.sedarplus.ca.

Silver Elephant Mining Corp.

Management's Discussion and Analysis

For the Three and Six Months Ended September 30, 2025 (Unaudited)

(Expressed in Canadian dollars, except where indicated)

The foregoing list is not exhaustive and additional factors may affect any of the Company's forward-looking statements. Although the Company has attempted to identify important factors that could cause actual performance, achievements, actions, events, results or conditions to differ materially from those described in forward-looking statements, there may be other factors that cause performance, achievements, actions, events, results or conditions to differ from those anticipated, estimated or intended.

These forward-looking statements, may involve, but are not limited to, statements with respect to future events or future performance, the general performance of the assets of the Company, and the results of exploration, development and production activities as well as expansions projects relating to the properties of the Company. Such forward-looking statements, which reflect management's expectations regarding the Company's future growth, results of operations, performance, and business prospects and opportunities, are based on certain factors and assumptions, including, without limitation, management's perceptions of historical trends; current conditions; expected future developments; the ongoing operation of the properties of the Company; the accuracy of public statements and disclosures made by the operators of such underlying properties; no material adverse change in the market price of the commodities that underlie the asset portfolio; no adverse development in respect of any significant property of the Company; the accuracy of expectations for the development of underlying properties that are not yet in production; and the absence of any other factors that could cause actions, events or results to differ from those anticipated, estimated or intended, and involve known and unknown risks and uncertainties which may cause the actual results, performance, or achievements to be materially different from future results, performance, or achievements expressed or implied by such forward-looking statements.

The forward-looking statements contained herein are made as of the date of this MD&A and the Company disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by applicable law. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. All forward-looking statements attributable to the Company are expressly qualified by these cautionary statements.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

For the Three and Six Months Ended September 30, 2025

(Expressed in Canadian Dollars except where noted)

1. Description of Business and Nature of Operations

Silver Elephant Mining Corp. (the “Company” or “Silver Elephant”) is incorporated under the laws of the province of British Columbia, Canada. The common shares of the Company are listed for trading on the Toronto Stock Exchange (the “TSX”) under the symbol “ELEF” and on the Frankfurt Stock Exchange under the symbol “1P2” and are quoted on the OTCQB under the symbol “SILEF”. The Company maintains its registered and records office at Suite 1008 – 409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2.

The Company is a mineral exploration company, with interests in the following projects; (a) the Pulacayo-Paca silver-lead-zinc project in Bolivia (the “Pulacayo Paca Project”), (b) the Ulaan Ovoo coal project located in Mongolia, and (c) the Chandgana coal project, located in Mongolia. The Ulaan Ovoo coal project and the Chandgana coal project have all been fully impaired. The recoverability of the amounts shown for exploration and evaluation assets are dependent upon the existence of economically recoverable reserves (the Company has not completed the studies required to categorize any of its current resource as reserves), the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production or from proceeds of disposition. The Company’s exploration and evaluation activities are not dependent on seasonality and may operate year-round; however, the Company may adjust the level of exploration and evaluation activities to manage its capital structure in light of changes in global economic conditions. To date, the Company has not received any revenue from commercial mining operations and is not in commercial production.

These consolidated financial statements have been prepared on a going concern basis which implies that the Company will continue realizing assets and discharging liabilities in the normal course of business for the foreseeable future. Should the going concern assumption not continue to be appropriate, further adjustments to carrying values of assets and liabilities may be required.

At September 30, 2025 (the “Financial Position Date”), the Company had working capital deficiency of \$31,641,780 (March 31, 2025 - \$30,825,657) and an accumulated deficit of \$262,533,962 (March 31, 2025 - \$258,794,402). Accordingly, the ability of the Company to realize the carrying value of its assets and continue operations as a going concern is dependent upon its ability to raise additional debt or equity to fund ongoing costs of operations and/or secure new or additional partners in order to advance its projects. These material uncertainties may cast significant doubt upon the Company’s ability to continue as a going concern. These consolidated financial statements do not include any adjustments relating to the recovery of assets and classification of assets and liabilities that may arise should the Company be unable to continue as a going concern and such adjustments could be material.

2. Basis Of Presentation

(a) Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). These condensed interim consolidated financial statements have been prepared using the same accounting policies and methods of computation as the most recent annual financial statements for the year ended March 31, 2025.

Where necessary, comparative figures for the consolidated statements of financial position, consolidated statements of profit or loss and the consolidated statements of cash flows have been reclassified to conform to the current year’s presentation. Such reclassifications enhance consistency and comparability with the current year’s financial statements.

These condensed interim consolidated financial statements were approved by the Board of Directors and authorized for issue on November 12, 2025.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)
For the Three and Six Months Ended September 30, 2025
(Expressed in Canadian Dollars except where noted)

2. Basis Of Presentation - continued

(b) Basis of Measurement

These consolidated financial statements have been prepared on the historical cost basis. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

(c) Basis of Consolidation

Subsidiaries are all entities over which the Company has control. The Company controls an entity where the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. Subsidiaries are deconsolidated from the date that control ceases. All intercompany balances, transactions, income and expenses, and profits or losses are eliminated on consolidation.

These consolidated financial statements include the accounts of the Company and its subsidiaries as follows:

Entity	Location	Ownership Interest at September 30, 2025	Project
Apogee Minerals Bolivia SA ("Apogee Bolivia")	Bolivia	100%	Paca Project
ASC Bolivia LDC ("ASC Bolivia")	Cayman	100%	Paca Project
ASC Holdings Limited ("ASC Holdings")	Cayman	100%	n/a
Chandgana Coal LLC	Mongolia	100%	Chandgana Project
Empresa Minera Silver Elephant Bolivia S.A.	Bolivia	100%	n/a
Illumina Silver Mining Corp. ("ISMC")	Canada	100%	Triunfo Project
Mega Thermal Coal Corp. (formerly Asia Mining Inc.)	Canada	100%	n/a
Prophecy Power Generation LLC	Mongolia	100%	n/a
Red Hill Mongolia LLC	Mongolia	100%	Ulaan Ovoo Project
UGL Enterprises LLC	Mongolia	100%	Ulaan Ovoo Project

De facto control exists in circumstances when an entity owns less than 50% voting rights in another entity but has control for reasons other than voting rights or contractual and other statutory means. These consolidated financial statements included the results of Oracle Commodity Holding Corp. ("Oracle"), and Nevada Vanadium Mining Corp. ("Nevada Vanadium") and its subsidiaries, as applicable, as management has determined that the Company had de facto control over these entities as the Company has the practical ability to direct the relevant activities of these entities for certain periods presented.

As at the date of the Spin-off Arrangement (note 14), the Company had a 40% ownership interest in Oracle and had de facto control over Oracle since the Company had: 1) power over Oracle, 2) exposure or rights to variable returns from its involvement with Oracle, and 3) the ability to use its power over Oracle to affect the amount of its returns from Oracle. As a result, the Company consolidated the accounts of Oracle in its consolidated financial statements, which also included the accounts of Nevada Vanadium (and its subsidiaries) for certain periods.

On August 16, 2024, CleanTech Vanadium Mining Corp. ("CleanTech") acquired Nevada Vanadium and therefore Nevada Vanadium was deconsolidated (the "Nevada Vanadium Deconsolidation") (note 14d and 25).

On August 14, 2025, Oracle was deconsolidated from the Company's consolidated financial statements as a result of loss of defacto control from the sale of shares of Oracle (note 15e).

2. Basis Of Presentation - continued

(d) Significant Judgments and Estimates

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions used by management where there is risk of material adjustments to assets and liabilities in future accounting periods include the estimated useful lives of depreciated and amortized assets, assumptions used in determination of the fair value of share-based payments, estimation of taxes and related penalties and interest, the timing and amount of decommissioning, restoration and similar liabilities and contingent liabilities.

The Company assesses its mineral properties' rehabilitation provision at each reporting date or when new material information becomes available. Exploration, development and mining activities are subject to various laws and regulations governing the protection of the environment. In general, these laws and regulations are continually changing, and the Company has made, and intends to make in the future, expenditures to comply with such laws and regulations. Accounting for reclamation obligations requires management to make estimates of the future costs that the Company will incur to complete the reclamation work required to comply with existing laws and regulations at each location. Actual costs incurred may differ from those amounts estimated.

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in preparing the Company's financial statements include determination of whether the Company has title and rights to the MPC Area within its Pulacayo Project (note 6), tax assessments, specifically the Ulaan Ovoo Tax Assessment (note 24), contingent liabilities (note 23), the assumption that the Company will continue as a going concern and whether the Company has significant influence over other entities, classification of expenditures as exploration and evaluation expenditures or operating expenses, the classification of financial instruments and determining de facto control (note 2(c)).

3. Material Accounting Policy Information

(a) Future Changes in Accounting Standards

In April 2024, the IASB issued *IFRS 18, Presentation and Disclosure in Financial Statements* ("IFRS 18"), the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements; and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its 'operating profit or loss'. IFRS 18 will apply for reporting periods beginning on or after 1 January 2027 and also applies to comparative information.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

(Expressed in Canadian Dollars except where noted)

**3. Material Accounting Policy Information - continued**

The Company is currently evaluating the impact of IFRS 18 on its consolidated financial statements.

Certain accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's consolidated financial statements.

¹ Net of \$944,475 to be settled with APM.**Pulacayo Paca Project, Bolivia**

The Company is predominantly focused on the development of the Pulacayo Paca Project in Southwestern Bolivia.

The Pulacayo Paca Project Area is made up of eight concessions in total: one concession held directly by the Company (the "Apurudita Area") and seven concessions (the "MPC Area") held through temporary permits and a Mining Production Contract ("MPC") dated October 3, 2019 with the Corporacion Minera de Bolivia ("Comibol").

The Apurudita concession is held through a Mining Administrative Contact ("MAC"). The MAC provides the Company with direct ownership rights. To maintain the Apurudita Area concession in good standing, the Company must make certain annual payments. The Apurudita Area concession permits the Company to explore and develop the Apurudita Area. The MPC grants, once approved by the Plurinational Legislative Assembly, the Company exploration rights and an exclusive right to develop the MPC Area for up to 30 years. As at the Financial Position Date, approval has not yet been received.

In December 2024, the Company received a notice of cancellation (the "Notice of Cancellation") of the approval process for the MPC from Comibol citing alleged illegal mining. The Company maintains that it has operated in full compliance under temporary permits issued by Comibol and received proper authorizations for its activities in the MPC Area. The Company remains committed to the development path for the Pulacayo Paca Project and has filed certain applications and appeals in Bolivia to reverse the Notice of Cancellation. The Notice of Cancellation does not affect the Apurudita Area.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

For the Three and Six Months Ended September 30, 2025

(Expressed in Canadian Dollars except where noted)

6. Exploration and Evaluation Assets – *continued*

On September 11, 2023, the Company entered into a sales and purchase agreement (the “SPA”) with Andean Precious Metals Corp. (“APM”) and its subsidiary (together “APM Group”), for the sale of up to 800,000 tonnes (the “SPA Quantity”) of silver-bearing oxide materials from the Company’s Pulacayo Paca property. In addition, the Company entered into a master services agreement (the “MSA”) with APM Group to provide expertise in mining operations, community relations, logistics and access to technical and geological information, in exchange for APM Group agreeing to pay the Company an aggregate of \$6,959,500 (US\$5,000,000) (the MSA Payments”) in installments, of which \$4,286,358 (US\$3,150,000) has been received.

In connection with the MSA, shares of ISMC, Apogee Bolivia, ASC Bolivia and ASC Holdings are held in escrow. These shares will be released upon the earlier of:

- (a) the escrow agent receiving a joint written notice from Silver Elephant and APM; or
- (b) the escrow agent receives a written direction or decision of a duly appointed arbitrator or court of competent jurisdiction in each case pursuant to the dispute resolution mechanisms provided for in the MSA directing the escrow agent to release the shares.

On December 30, 2024, the Company terminated the MSA and SPA (the “MSA and SPA Termination”) as a result of APM Group’s failure to pay a \$1,391,900 (US\$1,000,000) bonus payment based on silver price reaching a certain threshold (the “First Additional Consideration”). The First Additional Consideration became due once the London Bullion Market Association silver spot price averaged over US\$28 per oz for the previous 260 trading-day interval. The Company maintains that the First Additional Consideration is payable and is pursuing appropriate action.

Royalty

The Pulacayo Paca Project is subject to a two percent (2%) royalty on all mineral products produced from certain mineral leases in Bolivia relating to Pulacayo Paca project if the average price per ounce of silver exceeds US\$30.00 in a quarter.

On August 20, 2025, the Company executed amended and restated net smelter return (“NSR”) royalty agreements covering Silver Elephant’s Bolivian silver properties. Subject to the terms of the royalty agreements and any applicable regulatory or stock exchange approval, Silver Elephant and Oracle have agreed that 1) silver royalty based on raw or unprocessed minerals is reduced to 2% of (70% of gross metal value of sold materials), from 2% of (100% of gross metal value of sold materials), 2) silver royalty is payable regardless of silver price. The threshold silver price of \$30 per oz is removed, and 3) Silver Elephant is to provide a guarantee of silver royalty payments on behalf of Silver Elephant’s Bolivian subsidiaries who are the silver royalty payors. This amendment remains subject to the approval of the TSXV as at the date of these financial statements.

Triunfo Project, Bolivia

On July 10, 2020, the Company entered into an agreement (the “Triunfo Agreement”) with a third party (the “Triunfo Vendor”) for the right to conduct mining exploration activities (the “Exploration Right”) within the El Triunfo gold-silver-lead-zinc project in La Paz District, Bolivia (the “Triunfo Project”) and the right, at the Company’s election, to purchase the Triunfo Project for \$1,391,900 (US\$1,000,000) (the “Purchase Right” and together with the Exploration Right, the “Triunfo Rights”).

On April 8, 2025, the Company entered into an option assignment agreement (the “Triunfo Assignment Agreement”) with CleanTech pursuant to which the Company proposed to assign its rights in and to the Triunfo Agreement to CleanTech in exchange for \$155,000 (received). The Triunfo Assignment Agreement was completed on August 6, 2025 and the Company recorded a gain on sale of asset of \$154,999.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)
For the Three and Six Months Ended September 30, 2025
(Expressed in Canadian Dollars except where noted)

6. Exploration and Evaluation Assets – continued

Gibellini Project, USA

The Gibellini Project is comprised of the Gibellini, Bisoni and Louie Hill vanadium deposits and associated claims located in the State of Nevada, USA.

On September 18, 2020, the company completed the acquisition of the Bisoni vanadium property situated immediately southwest of the Gibellini Project pursuant to an asset purchase agreement (the “Bisoni APA”) dated August 18, 2020, with Cellcube Energy Storage Systems Inc. (“Cellcube”). The Bisoni property comprised of 201 lode mining claims. As consideration for the acquisition of the Bisoni property under the Bisoni APA, the Company issued 4 million Common Shares (the “Bisoni APA Shares”) and paid \$200,000 cash to Cellcube. Additionally, subject to TSX approval, if, on or before December 31, 2023, the price of European vanadium pentoxide on the Metal Bulletin (or an equivalent publication) exceeds US\$12 a pound for 30 consecutive days, the Company will issue to Cellcube additional common shares with a value of \$500,000 calculated based upon the 5-day volume weighted average price of the common shares immediately following the satisfaction of the vanadium pentoxide pricing condition (the “Bisoni Condition”). The Gibellini Project and its obligations were transferred to Nevada Vanadium on January 14, 2022 as a result of the Spin-off Arrangement. The Bisoni condition was potentially met on April 5, 2022, and derivative liabilities of \$500,000 was recognized (the “Bisoni Liability”) by Nevada Vanadium.

On August 16, 2024, the Gibellini Project along with the Bisoni Liability was deconsolidated from the Company’s consolidated financial statements (note 15d).

7. Investment in Oracle Commodity Holding Corp.

On August 14, 2025, Oracle was deconsolidated from the Company’s consolidated financial statements as a result of loss of defacto control from the sale of shares of Oracle (the “Oracle Deconsolidation”). However, as the Company still maintains significant influence over Oracle, thus the Company has applied the equity method of accounting for Oracle. The Company has significant influence over Oracle as a result of having the power to participate in the financial and operating policy decisions of Oracle but does not have control or joint control.

The Company recorded the carrying value of its investment in Oracle at its fair value of \$494,002, resulting in a loss from deconsolidation of \$582,195. The fair value of the Company’s investment in Oracle is determined based on share price of Oracle during August 14, 2025.

	\$
Balance, April 1, 2025	-
Derecognition of net assets of Oracle	557,776
Derecognition of non-controlling interest of Oracle	600,261
Consideration received	(81,840)
Fair value loss from deconsolidation of Oracle	(582,195)
	494,002
Disposition of Oracle common shares	(250,016)
Proportionate share of losses	(102,038)
Balance, September 30, 2025	141,948

As at September 30, 2025, the Company owned approximately 12% (March 31, 2025 - 35%) of the common shares of Oracle.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

For the Three and Six Months Ended September 30, 2025

(Expressed in Canadian Dollars except where noted)

7. Investment in Oracle Commodity Holding Corp. – continued

The following tables illustrates the summarized financial information of Oracle:

	September 30, 2025 (\$)	March 31, 2025 (\$)
Current assets	439,110	687,571
Non-current assets	203,916	722,875
Current liabilities	524,667	360,698
Equity	118,359	1,049,748

	Three Months Ended		Six Months Ended	
	September 30, 2025 (\$)	September 30, 2024 (\$)	September 30, 2025 (\$)	September 30, 2024 (\$)
General and administrative expenses	(159,446)	(200,206)	(308,607)	(854,365)
Other items	(518,888)	(3,720,069)	(650,420)	(4,637,212)
Net loss for the period	(678,334)	(3,920,275)	(959,027)	(5,491,577)

Oracle had no contingent liabilities or capital commitments as at September 30, 2025 and March 31, 2025.

8. Investment in CleanTech Vanadium Mining Corp.

As a result of the Spin-off Arrangement (note 15), the Company consolidated CleanTech from January 14, 2022 to September 30, 2023, the period for which the Company had de facto control over CleanTech. Effective October 1, 2023, the Company deconsolidated CleanTech as de facto control was lost due to dilution. However, as Oracle still maintained significant influence over CleanTech, the Company through its defacto control over Oracle, has applied the equity method of accounting for CleanTech. Oracle has significant influence over CleanTech as a result of having the power to participate in the financial and operating policy decisions of CleanTech but does not have control or joint control.

On August 16, 2024, CleanTech acquired Nevada Vanadium (note 15d), and as a result, the Company's 27,602,912 shares of Nevada Vanadium were exchanged for 27,602,912 shares of CleanTech with a fair value of \$698,997.

	\$
Balance, April 1, 2024	1,534,784
Disposition of CleanTech common shares	(12,448)
Fair value of considerations received	698,997
Proportionate share of losses	(1,160,582)

(Expressed in Canadian Dollars except where noted)

**8. Investment in CleanTech Vanadium Mining Corp. – continued**

As a result of the Oracle Deconsolidation, Oracle's investment in CleanTech was also deconsolidated from the Company's consolidated financial statements.

As at September 30, 2025, the Company owned nil% (March 31, 2025 – 13%) of the common shares of CleanTech.

9. Other non-current assets

	September 30, 2025 (\$)	March 31, 2025 (\$)
Royalty interests	-	75,000
Right of use asset (note 10)	45,140	54,480
Restricted cash equivalents	34,500	63,250
Total other current liabilities	79,640	192,730

Royalty interests were held by Oracle and deconsolidated from the Company's consolidated financial statements as a result of the Oracle Deconsolidation.

10. Right of Use Assets and Lease Liabilities

The Company leases its office in Vancouver, Canada and has recognized a right of use asset and lease liability accordingly. The incremental borrowing rate for lease liability initially recognized as at August 1, 2022 was 5.6%. Right of use assets are included in *other non-current assets* and lease liabilities are included *other current liabilities* and *non-current lease liability*.

	Right of Use Assets (\$)	Lease Liabilities (\$)

13. Provision for Closure and Reclamation

The Company's closure and reclamation costs consists of costs accrued based on the current best estimate of mine closure and reclamation activities that will be required at the Ulaan Ovoo site upon completion of mining activity. These activities include costs for earthworks, including land re-contouring and re-vegetation, water treatment and demolition. The Company's provision for future site closure and reclamation costs is based on the level of known disturbance at the reporting date, known legal requirements and estimates prepared by a third-party specialist.

Management used a risk-free interest rate of 3.67% at the Financial Position Date (March 31, 2025 – 3.32%) in preparing the Company's provision for closure and reclamation. Although the ultimate amount of reclamation costs to be incurred cannot be predicted with certainty, the total undiscounted amount of estimated cash flows required to settle the Company's estimated obligations is \$2,575,470 (March 31, 2025 - \$2,734,764) over the next 23 years from the Financial Position Date. The cash expenditures are expected to occur over a period of time extending several years after the projected mine closure of the mineral properties.

(Expressed in Canadian Dollars except where noted)

14. Share Capital - continued

During the year ended March 31, 2025, the Company received an aggregate of \$60,000 for a private placement in progress, which closed on May 5, 2025.

(c) Share-based compensation plan

The Company has a 10% (based on the Company's issued and outstanding common shares) rolling equity-based compensation plan in place for the issuance of options and stock appreciation rights and a separate 5% (based on the Company's shares issued and outstanding common shares as of the last financial year end) rolling equity-based compensation plan in place for bonus shares, as approved by the Company's shareholders on September 10, 2021 (the "2021 Plan"). Under the 2021 Plan the Company may grant stock options, bonus shares or stock appreciation rights. All stock options and other share-based awards granted by the Company, or to be granted by the Company, since the implementation of the 2021 Plan will be issued under, and governed by, the terms and conditions of the 2021 Plan. The stock option vesting terms are determined by the Board of Directors on the date of the grant with a maximum term of 10 years.

The continuity of the Company's share options is as follows:

	Number of Options	Weighted Average Exercise Price (\$)
Balance, April 1, 2024	2,494,500	0.43
Granted	1,275,000	0.51
Exercised	(105,000)	0.27
Cancelled	(195,625)	0.43
Balance, March 31, 2025	3,468,875	0.46
Granted	1,345,000	0.24
Cancelled	(214,375)	0.44
Balance, September 30, 2025	4,599,500	0.40

The following table summarizes the stock options outstanding as at the Financial Position Date.

Exercise Price (\$)	Options Outstanding		Options Exercisable

(Expressed in Canadian Dollars except where noted)

14. Share Capital - continued

The fair value of each share option is estimated on the date of grant using the Black-Scholes Option Pricing Model that uses the assumptions noted in the table below. Expected volatilities are based on the historical volatility of the Company's shares, and other factors. The expected term of share options granted represents the period of time that share options granted are expected to be outstanding. The risk-free rate of periods within the contractual life of the share option is based on the Canadian government bond rate. Assumptions used for share options granted for the periods presented are as follows:

For the Six Months Ended September 30, 2025

Grant Date	Number of Share Options	Share Price (\$)	Exercise Price (\$)	Expected Price Volatility	Risk Free Interest Rate	Expected Life (Years)	Expected Dividend Yield	Fair Value Per Option (\$)	Total Fair Value (\$)
September 24, 2025	50,000	0.195	0.195	102%	2.75%	5.0	-	0.15	7,500
June 20, 2025	1,295,000	0.245	0.24	102%	2.96%	5.0	-	0.19	246,050
	1,345,000								253,550

(Expressed in Canadian Dollars except where noted)

**15. Non-Controlling Interest**

On January 14, 2022, the Company completed a strategic reorganization of the Company's business through a statutory plan of arrangement (the "Spin-off Arrangement") under the Business Corporations Act (British Columbia), dated November 8, 2021. Pursuant to the Spin-off Arrangement, the common shares of the Company were consolidated on a 10:1 basis and each holder of common shares of the Company received in exchange for every 10 pre-consolidation common shares held: (i) one post-consolidation common share of the Company; (ii) one common share of CleanTech; (iii) one common share of Nevada Vanadium; and (iv) two common shares of Oracle.

As a result of the Spin-off Arrangement:

- i. certain intercompany royalties held by the Company were transferred to Oracle in exchange for the issuance of 1,785,430 Oracle shares;
- ii. the Minago Project was spun out, into CleanTech in exchange for the issuance of 50,000,000 CleanTech shares, and the assumption of certain liabilities related to the underlying assets;
- iii. and the Gibellini Project was spun out, into Nevada Vanadium in exchange for the issuance of 50,000,000 Nevada Vanadium shares, and the assumption of certain liabilities related to the underlying assets; and
- iv. Oracle purchased 22,953,991 of the outstanding shares of both Nevada Vanadium and CleanTech in exchange for the issuance of 78,214,570 Oracle shares to the Company.

In addition, as a result of the Spin-off Arrangement, each of the Company's option and warrant holders as at January 14, 2022, (a "Holder") is entitled to receive, upon exercise of each such warrant and option at the same original exercise price and in accordance with the terms of such warrant and option, one share of each of CleanTech and Nevada Vanadium; two shares of Oracle (collectively, the "Reserved Shares"); and one share of Silver Elephant.

The following table presents the movements of non-controlling interests:

	Nevada Vanadium (\$)	Oracle (\$)	Total (\$)
Balance, April 1, 2024	13,489,421	(110,364)	13,379,057
Change in ownership (a)	87,344	366,878	454,222
Net loss	(445,342)	(697,675)	(1,143,017)
Share-based payments (b, c and d)	17,630	166,022	183,652
Other comprehensive income	191,627	-	191,627
Deconsolidation of Nevada Vanadium	(13,340,680)	-	(13,340,680)
Balance, March 31, 2025	-	(275,139)	(275,139)
Change in ownership (a)	-	(84,115)	(84,115)
Net loss	-	(258,509)	(258,509)
Share-based payments (b, c and d)	-	17,502	17,502
Deconsolidation of Oracle	-	600,261	600,261
Balance, September 30, 2025	-	-	-

As Nevada Vanadium was deconsolidated from the Company's consolidated financial statements (note 15d) on August 16, 2024, non-controlling interest disclosure relating to Nevada Vanadium is provided up until this date of deconsolidation.

As Oracle was deconsolidated from the Company's consolidated financial statements (note 15e) on August 14, 2025 (the "Oracle Deconsolidation Date"), non-controlling interest disclosure relating to Oracle is provided up until this date of deconsolidation.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

For the Three and Six Months Ended September 30, 2025

(Expressed in Canadian Dollars except where noted)

15. Non-Controlling Interest – continued

- a) Change in ownership of subsidiaries:

Oracle

On May 9, 2024, Oracle closed a non-brokered private placement and issued 200,000 units at a price of \$0.05 per unit for aggregate gross proceeds of \$10,000. Each unit consists of one common share of Oracle and one share purchase warrant. Each warrant entitles the holder to purchase one additional common share of Oracle at a price of \$0.06 per share until May 9, 2027.

On June 12, 2024, Oracle closed a non-brokered private placement raising gross proceeds of \$548,350 through the issuance of 4,985,000 units at a price of \$0.11 per unit. Each unit consists of one common share of Oracle and one share purchase warrant with each warrant entitling the holder to purchase one additional share at a price of \$0.15 per share until June 12, 2027. In addition, 148,750 units were issued in connection with this private placement as finder's fees.

On July 22, 2024, Oracle issued 105,263 shares to settle liability with a deemed price of \$0.095 per common share to the Oracle's director valued at \$10,000.

From July 1, 2025 to the Oracle Deconsolidation Date (the "Final Oracle Quarter"), Oracle issued nil shares in connection with stock options exercised (July 1, 2024 to September 30, 2024 (the "Oracle Prior Year Quarter – nil). The stock options were exercised for total proceeds of \$nil (Oracle Prior Year Quarter - \$nil).

From April 1, 2025 to the Oracle Deconsolidation Date (the "Final Oracle Period"), Oracle issued nil shares in connection with stock options exercised (April 1, 2024 to September 30, 2024 (the "Oracle Prior Year Period") – 50,000). The stock options were exercised for total proceeds of \$nil (Oracle Prior Year Period - \$2,500).

During the Final Oracle Quarter, Oracle cancelled 65,150 (Oracle Prior Year Quarter – nil) shares for services to certain of its directors, officers, employees, and consultants with a fair value of \$1,641 (Oracle Prior Year Quarter - \$nil).

During the Final Oracle Period, Oracle cancelled 37,372 (Oracle Prior Year Period – nil) shares for services to certain of its directors, officers, employees, and consultants with a fair value of \$1,016 (Oracle Prior Year Period - \$nil).

Nevada Vanadium

On April 3, 2024, Nevada Vanadium closed a non-brokered private placement and issued 725,733 units at a price of \$0.06 per unit for aggregate gross proceeds of \$43,544. Each unit consists of one common share of Nevada Vanadium and one share purchase warrant. Each warrant entitles the holder to purchase one additional common share of Nevada Vanadium at a price of \$0.08 per share until April 3, 2027.

- b) During the Final Oracle Quarter, Oracle recorded share-based payments of \$nil (Oracle Prior Year Quarter – \$45,416) and was expensed as general and administrative expenses.

During the Final Oracle Period, Oracle recorded share-based payments of \$17,502 (Oracle Prior Year Period – \$104,907) and was expensed as general and administrative expenses.

The fair value of each stock option is estimated on the date of grant using the Black-Scholes Option Pricing Model with the assumptions presented in the table below. Expected volatilities are based on historical volatility of the comparable companies as Oracle has a limited history of trading. The expected term of share options granted represents the period of time that the granted share options are expected to be outstanding. The risk-free interest rate is based on the Canadian government bond rate.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

For the Three and Six Months Ended September 30, 2025

(Expressed in Canadian Dollars except where noted)

15. Non-Controlling Interest - continued

Assumptions used for stock options granted by Oracle are as follows:

Grant Date	Number of Share Options	Exercise Price (\$)	Expected Price Volatility	Risk Free Interest Rate	Expected Life (Years)	Expected Dividend Yield	Fair Value Per Option (\$)	Total Fair Value (\$)
December 4, 2023	7,990,000	0.05	101%	3.46%	5.0	-	0.04	319,600
February 1, 2024	300,000	0.05	101%	3.24%	5.0	-	0.04	12,000
October 3, 2024	200,000	0.09	98%	2.85%	5.0	-	0.07	14,000
November 19, 2024	500,000	0.05	99%	3.13%	5.0	-	0.03	15,000

Oracle did not grant any share purchase options during the period from April 1, 2025 to August 14, 2025.

- c) During the period from April 1, 2024 to August 16, 2024, Nevada Vanadium recorded share-based payments of \$17,630 of which \$1,693 was capitalized as exploration cost and the remainder of \$15,937 was expensed as general and administrative expenses.

Nevada Vanadium did not grant any share purchase options during the period from April 1, 2024 to August 16, 2024.

- d) On August 16, 2024, CleanTech acquired Nevada Vanadium (the "Nevada Vanadium Transaction"). Nevada Vanadium shareholders received one (1) (the "Exchange Ratio") CleanTech common share (a "CleanTech Share") for each Nevada Vanadium share held immediately prior to the effective time of the Nevada Vanadium Transaction. All convertible securities of Nevada Vanadium outstanding immediately prior to the effective time of the Nevada Vanadium Transaction were exchanged for securities of CleanTech bearing substantially the same terms as the securities replaced based on the Exchange Ratio.

Effective August 16, 2024, the Company deconsolidated Nevada Vanadium as it was acquired by CleanTech. Accordingly, the Company recognized a loss on deconsolidation of Nevada Vanadium of \$1,188,283 with detail as follows:

	\$
Assets	
Exploration and evaluation assets	19,189,310
Land	3,671,554
Building	658,400
Liabilities

Derecognition of net assets of Oracle	(557,776)
Derecognition of non-controlling interest of Oracle	(600,261)
Retained investment in Oracle	494,002
Consideration received	81,840
Loss from deconsolidation of Oracle	(582,195)

16. Related Party Transactions

The Company has a cost sharing agreement (the "CSA") with CleanTech and Oracle pursuant to which the companies provide each other with general, technical and administrative services, as reasonably requested, on a cost reimbursement basis.

During the three and six months ended September 30, 2025, the Company had related party transactions with key management personnel who provide management and consulting services to the Company. Key management personnel are persons responsible for planning, directing and controlling the activities of an entity, and include, but are not limited to, the Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO"), Chief Legal Officer ("CLO") and executive and non-executive directors.

Silver Elephant Mining Corp.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

For the Three and Six Months Ended September 30, 2025

(Expressed in Canadian Dollars except where noted)

18. Care and Maintenance of Coal Properties - *continued*

The Ulaan Ovoo Project and Chandgana Project is subject to a royalty payable to Oracle as follows: (i) two percent (2%) of returns in respect of all mineral products, other than coal after the commencement of commercial production; and (ii) in respect of coal (taking into account all interim multi-party transactions and calculated based on the final destination of coal extracted from the royalty area), the greater of: (a) US\$3.00 per tonne of coal extracted; (b) five percent (5%) of the money received per tonne of coal including transportation costs, subject to adjustment as provided; (c) in respect of coal sold, shipped and used in China, three percent (3%) per tonne of Newcastle 5,500 kcal/kg NAR as reported on the Intercontinental Exchange, Inc.; (d) four percent (4.0%) of the price per tonne of coal at the relevant port of location of export from Mongolia; and (e) if such price is not readily ascertainable, four percent (4.0%) of the average price of the China 5,500 kcal/kg NAR price per tonne as reported on the Zhengzhou Commodity Exchange for coal that was delivered to China.

On August 20, 2025, the Company and Oracle executed amended and restated net smelter return (“NSR”) royalty agreements covering Silver Elephant’s Mongolian coal properties. For the Mongolian coal properties, subject to the terms of the royalty agreements and any applicable regulatory or stock exchange approval, Silver Elephant and Oracle agreed that coal royalty is revised to the greater of US\$2 per tonne or 3% of NSR. Silver Elephant agreed to provide a guarantee of coal royalty payments on behalf of Silver Elephant’s Mongolian subsidiaries who are the royalty payors. This amendment remains subject to the approval of the TSXV as at the date of these financial statements.

19. Supplemental Cash Flow Information

	Six Months Ended	
	September 30, 2025 (\$)	September 30, 2024 (\$)
Non-Cash Financing and Investing Activities:		
Exploration and evaluation expenditures included in accounts payable	15,036	225,226
Shares issued to settle liability	-	10,000
Share-based payments capitalized in mineral properties	-	1,693
Bonus shares	-	37,380
Shares for services	72,188	-
Finders’ units	43,808	86,869
	131,032	361,168

20. Capital Management

Management considers its capital structure to consist of share capital, stock options and warrants. The Company manages its capital structure and makes adjustments to it, based on the funds available to, and required by the Company in order to support the acquisition, exploration and development of exploration and evaluation assets. The Board of Directors does not establish quantitative returns on capital criteria for management. In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors.

The properties in which the Company currently holds interests are predominantly in the exploration and development stage; as such, the Company is dependent on external financing to fund its activities. In order to carry out exploration and development plans and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. There were no changes in management’s approach to capital management during the three and six months ended September 30, 2025. Neither the Company nor its subsidiaries are subject to externally imposed capital requirements.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)
For the Three and Six Months Ended September 30, 2025
(Expressed in Canadian Dollars except where noted)

21. Fair Value Measurements and Financial Instruments

(a) Classification

The Company's classification of its financial instruments as follows:

Asset or Liability	IFRS 9 Classification
Cash and accounts payable	Amortized cost
Restricted cash equivalents included in other non-current assets	Amortized cost
Due to related parties in other current liabilities	Amortized cost
Accounts payable and accrued liabilities	Amortized cost
Derivative assets, derivative liabilities	FVTPL ¹

¹ Fair value through profit and loss ("FVTPL")

(b) Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. The Company utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability (for example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value option contracts), or inputs that are derived principally from or corroborated by observable market data or other means; and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

The Company has determined the estimated fair values of its financial instruments based upon appropriate valuation methodologies. As at the Financial Position Date, there were no financial assets measured and recognized in the statement of position that would be categorized as Level 2 or Level 3 in the fair value hierarchy above.

The fair value of the Company's financial instruments including cash, accounts payable and accrued liabilities and due to related parties approximates their carrying value due to the immediate or short-term maturity of these financial instruments. Restricted cash equivalents included in other non-current assets is readily convertible into cash, and therefore its carrying value approximates fair value. Derivative assets and liabilities except when the Company issues a unit comprising common shares and warrants that have variability in its settlement ("Variable Warrants") are recorded at fair value based on the quoted market price at the end of each reporting period with changes in fair value through profit or loss. As at the Financial Position Date, the fair value of: 1) derivative assets is \$nil (March 31, 2024 - \$5,099), and 2) derivative liabilities is \$1,760,591 (March 31, 2024 - \$987,018). The Company does not offset financial assets with financial liabilities. Variable Warrants are classified as level 2. There were no transfers between Level 1, 2 and 3 for the three and six months ended September 30, 2025.

22. Financial Risk Management

The Company's financial instruments are exposed to certain financial risks. The risk exposures and the impact on the Company's financial instruments at the Financial Position Date are summarized below. The Board of Directors periodically reviews with management the principal risks affecting the Company and the systems that have been put in place to manage these risks.

(a) Liquidity risk

Liquidity risk is the risk that an entity will be unable to meet its financial obligations as they fall due. The Company manages liquidity risk by preparing cash flow forecasts of upcoming cash requirements. As at the Financial Position Date, the Company had a cash balance of \$237,096 (March 31, 2025 – \$271,838) and accounts payable and accrued liabilities of \$2,554,225 (March 31, 2025 - \$2,518,677). Liquidity risk is assessed as very high.

The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support normal operation requirements as well as the growth and development of its mineral property interests. The Company coordinates this planning and budgeting process with its financing activities through the capital management process in normal circumstances.

(b) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk primarily associated with cash, restricted cash equivalents included in other non-current assets and receivables, net of allowances. The carrying amount of financial assets included on the statements of financial position represents the maximum credit exposure.

(c) Market risk

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company's cash and restricted cash equivalents included in other non-current assets primarily include highly liquid investments that earn interest at market rates that are fixed to maturity. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have significant impact on the fair values of the financial instruments as of the Financial Position Date. The Company manages interest rate risk by maintaining an investment policy that focuses primarily on preservation of capital and liquidity.

(ii) Foreign currency risk

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. The Company has foreign exploration and development projects in Mongolia and Bolivia and undertakes transactions in various foreign currencies. The Company is therefore exposed to foreign currency risk arising from transactions denominated in a foreign currency and the translation of financial instruments denominated in US dollars, Mongolian tugrik, and Bolivian boliviano into its reporting currency, the Canadian dollar.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

For the Three and Six Months Ended September 30, 2025

(Expressed in Canadian Dollars except where noted)

22. Financial Risk Management - continued

(iii) Commodity and equity price risk

Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. Commodity prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for these commodities, the level of interest rates, the rate of inflation, investment decisions by large holders of commodities including governmental reserves and stability of exchange rates can all cause significant fluctuations in prices. Such external economic factors are in turn influenced by changes in international investment patterns and monetary systems and political developments. The Company is also exposed to price risk with regards to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market.

(iv) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's derivative financial liability includes Variable Warrants. A 10% increase or decrease in the market price of common shares of the Company has a corresponding effect of approximately \$176,000 to net loss.

The Company closely monitors commodity prices, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in value may be significant.

Sensitivity Analysis

A 1% change in interest rates does not have a material effect on the Company's profit or loss and equity.

The Company has certain cash balances, and accounts payables denominated in either the US Dollar, Mongolian Tugrik or Bolivian Boliviano (the "Foreign Currencies"), currencies other than the functional currency of Company. Based on the above, net exposures as at the Financial Position Date, with other variables unchanged, a 10% strengthening (weakening) of the Canadian dollar against the Mongolian Tugrik would impact net loss and comprehensive loss with other variables unchanged by approximately \$2,498,000. A 10% strengthening (weakening) of the Canadian dollar against the Bolivian Boliviano would impact net loss and comprehensive loss with other variables unchanged by approximately \$134,000. A 10% strengthening (weakening) of the US Dollar against the Canadian Dollar would impact net gain with other variables unchanged by approximately \$2,000. The Company currently does not use any foreign exchange contracts to hedge this currency risk.

23. Contingencies

On January 14, 2025, the Company commenced an arbitration in British Columbia against APM related to the MSA and SPA Termination (the "Andean Dispute"), seeking payment of the First Additional Consideration (note 6). The MSA governs the parties' mining activities in Bolivia. On March 14, 2025, APM filed a counter claim against the Company for US\$2,097,510, alleging breaches of contract and payments owed. The Company evaluated the applicable IFRS' for the accounting treatment of the Andean Dispute, applying IAS 37 – Provisions, Contingent Liabilities and Contingent Assets and recorded \$1,174,860 (US\$860,451) as advances that still need to be settled from either deduction of eligible costs under the MSA/SPA or refunded, and included in accounts payable and accrued liabilities. The Company maintains APM's counter claim is without merit and such amount is recorded only for IFRS compliance purposes.

Silver Elephant Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited)

For the Three and Six Months Ended September 30, 2025

(Expressed in Canadian Dollars except where noted)

**24. Mongolia Tax Matter and Restatement**

During the year ended March 31, 2025, the Company has identified an error in relation to taxes payable with respect to the transfer of certain licenses of its Ulaan Ovoo project from one wholly owned subsidiary to another wholly owned subsidiary (the “Ulaan Ovoo License Transfer”).

On September 11, 2024, the Company received a tax notice of assessment of \$24,699,111 (63,787,924,960 Mongolian Tugriks) (the “Ulaan Ovoo Tax Assessment”) from Mongolia’s Capital City Tax Office (“CCTO”) in connection with the Ulaan Ovoo License Transfer. The Ulaan Ovoo Tax Assessment is comprised of: 1) \$12,305,720 (31,780,752,566 Mongolian Tugriks) related to corporate income tax (“CIT”) and related penalties and interest, and 2) \$12,393,391 (32,007,172,394 Mongolian Tugriks) related to value added tax (“VAT”) and related penalties and interest. The Ulaan Ovoo License Transfer was completed on January 5, 2022. Prior to the completion of the Ulaan Ovoo License Transfer, the Company sought tax clarifications and on October 11, 2021 received confirmation from Mongolia’s Large Taxpayer’s Office (“LTPO”) confirming the Ulaan Ovoo License Transfer would not be subject to CIT as the ultimate owner of the subsidiaries affected by the Ulaan Ovoo License Transfer remain unchanged. The Company is also of the opinion VAT should not apply to the Ulaan Ovoo License Transfer as there was no consideration transferred to and received by the applicable subsidiaries, and treatment of such would generally follow the same treatment as CIT. Accordingly, the Company filed a dispute for the Ulaan Ovoo Tax Assessment on October 18, 2024. There can be no assurance the Company will be successful in this dispute.

The LTPO and CCTO are sister offices both reporting directly to the Deputy Commissioner of the General Department of Taxation of Mongolia.

As a result of the Mongolia Tax Matter the Company restated its consolidated financial statements as noted below, which also includes a restatement relating to the Nevada Vanadium Deconsolidation.

Consolidated Statements of Financial Position

	Original March 31, 2024 (\$)	Ulaan Ovoo Tax Assessment (\$)	Restated March 31, 2024 (\$)
Liabilities			
Provision for Mongolia tax dispute	-	24,454,707	24,454,707
Total current liabilities	10,903,584	24,454,707	35,358,291
Total liabilities	15,435,430	24,454,707	39,890,137
Shareholders’ Equity			
Accumulated other comprehensive income	530,098	(802,875)	(272,777)
Deficit	(226,913,916)	(23,651,832)	(250,565,748)
Equity attributable to equity holders of parent	21,925,296	(24,454,707)	(2,529,411)
Total equity	35,304,353	(24,454,707)	10,849,646

The increase in the provision for Mongolia tax dispute from \$24,454,707 at March 31, 2024 to \$27,682,126 at March 31, 2025 is attributable to accrual of interest of \$2,624,646 and the effect of foreign exchange of \$602,773.
